Fiserv Reports Third Quarter 2017 Results

GAAP revenue growth of 1 percent and internal revenue growth of 2 percent;

GAAP EPS increase of 13 percent and adjusted EPS increase of 11 percent;

Full year 2017 outlook affirmed

BROOKFIELD, Wis.--(BUSINESS WIRE)-- Fiserv, Inc. (NASDAQ: FISV), a leading global provider of financial services technology solutions, today reported financial results for the third quarter of 2017.

Third Quarter 2017 GAAP Results

GAAP revenue for the company increased 1 percent to \$1.40 billion in the third quarter compared to the prior year period, with 3 percent growth in the Payments segment and 1 percent decline in the Financial segment. For the first nine months of 2017, GAAP revenue increased 3 percent to \$4.18 billion versus the same period last year, with 4 percent growth in the Payments segment and 2 percent growth in the Financial segment. GAAP revenue growth in 2017 included the effects of acquisitions and the divestiture of the company's Australian item processing business in May.

GAAP earnings per share was \$1.08 in the third quarter and \$3.23 in the first nine months of 2017, increasing 13 percent and 2 percent, respectively, compared to the prior year periods. GAAP earnings per share included net investment gains of \$0.09 per share and \$0.39 per share in the first nine months of 2017 and 2016, respectively, driven by the disposition of a business and a business interest at StoneRiver Group, L.P. ("StoneRiver"), a joint venture in which the company owns a 49 percent interest. GAAP earnings per share in 2017 included a benefit related to excess tax benefits recorded from the exercise of share-based compensation awards.

GAAP operating margin was 26.5 percent in both the third quarter and first nine months of 2017, decreasing 30 basis points and increasing 20 basis points, respectively, compared to the prior year periods.

Net cash provided by operating activities was \$1.02 billion in the first nine months of 2017 compared with \$1.04 billion in the prior year period. Net cash provided by operating activities included cash distributions from StoneRiver of \$44 million and \$140 million in the first nine months of 2017 and 2016, respectively.

"Fiserv continued to execute well, delivering double-digit adjusted earnings per share growth despite pressure from lower periodic revenue in the quarter," said Jeffery Yabuki, President and Chief Executive Officer of Fiserv. "Sales were solid in the quarter, providing momentum for a strong close to the year."

Third Quarter 2017 Non-GAAP Results and Additional Information

- | Adjusted revenue increased 2 percent to \$1.34 billion in the third quarter and 3 percent to \$3.98 billion in the first nine months of 2017 compared to the prior year periods.
- | Internal revenue growth for the company was 2 percent in the third quarter, driven by 3 percent growth in the Payments segment. Financial segment internal revenue growth in the quarter was flat compared to the prior year period.
- | Internal revenue growth for the company was 3 percent in the first nine months of 2017, with 4 percent growth in the Payments segment and 2 percent growth in the Financial segment.
- | Adjusted earnings per share increased 11 percent to \$1.27 in the third quarter and 13 percent to \$3.71 in the first nine months of 2017 compared to the prior year periods.

- | The company repurchased 2.4 million shares of common stock for \$298 million in the third quarter and 8.3 million shares of common stock for \$983 million in the first nine months of 2017. As of September 30, 2017, the company had 12.2 million remaining shares authorized for repurchase.
- | The company completed three acquisitions during the quarter:
 - | In July, the company acquired the assets of PCLender, LLC, a leader in next-generation internet-based mortgage software and mortgage lending technology solutions, to enhance the company's suite of mortgage origination services.
 - | In August, the company acquired Dovetail Group Limited, a leading provider of bank payments and liquidity management solutions, to further enable the company to help financial institutions around the world transform their payments infrastructure.
 - | In September, to expand its digital leadership, the company completed its acquisition of Monitise plc, a provider of digital solutions that enable innovative digital banking experiences for leading financial institutions worldwide.

Outlook for 2017

For the full year, Fiserv expects internal revenue growth of 4 percent and adjusted earnings per share in a range of \$5.05 to \$5.12, which represents growth of 14 to 16 percent over adjusted earnings per share of \$4.43 in 2016.

"We expect to achieve our full-year financial outlook which includes strong fourth quarter revenue growth leading to internal revenue growth acceleration in 2018," said Yabuki.

Use of Non-GAAP Financial Measures

In this earnings release, the company supplements its reporting of information determined in accordance with GAAP, such as revenue, operating income, operating margin, net income, earnings per share and net cash provided by operating activities, with "adjusted revenue," "internal revenue growth," "adjusted operating income," "adjusted operating margin," "adjusted net income," "adjusted earnings per share" and "free cash flow." Management believes that adjustments for certain non-cash or other items and the exclusion of certain pass-through revenue and expenses enhance shareholders' ability to evaluate the company's performance as such measures provide additional insights into the factors and trends affecting its business. Therefore, the company excludes these items from GAAP revenue, operating income, operating margin, net income, earnings per share and net cash provided by operating activities to calculate these non-GAAP measures. The corresponding reconciliations of these non-GAAP financial measures to the most comparable GAAP measures are included in this earnings release, except for forward-looking measures where a reconciliation to the corresponding GAAP measures is not available due to the variability, complexity and low visibility of the non-cash and other items described below that are excluded from the non-GAAP outlook measures. See page 12 for additional information regarding the company's forward-looking non-GAAP financial measures.

Examples of non-cash or other items may include, but are not limited to, non-cash deferred revenue adjustments arising from acquisitions, non-cash intangible asset amortization expense associated with acquisitions, non-cash impairment charges, gains or losses from dispositions and unconsolidated affiliates, severance costs, merger and integration costs related to acquisitions, and certain costs associated with the achievement of the company's operational effectiveness objectives. The company excludes these items to more clearly focus on the factors management believes are pertinent to its

operations, and management uses this information to make operating decisions, including the allocation of resources to the company's various businesses.

Internal revenue growth and free cash flow are non-GAAP financial measures and are described on page 11. Management believes internal revenue growth is useful because it presents revenue growth excluding the effects of acquisitions and dispositions and the impact of postage reimbursements in the company's Output Solutions business, and including deferred revenue purchase accounting adjustments. Management believes free cash flow is useful to measure the funds generated in a given period that are available for debt service requirements and strategic capital decisions. Management believes this supplemental information enhances shareholders' ability to evaluate and understand the company's core business performance.

These non-GAAP measures may not be comparable to similarly titled measures reported by other companies and should be considered in addition to, and not as a substitute for, revenue, operating income, operating margin, net income, earnings per share and net cash provided by operating activities or any other amount determined in accordance with GAAP.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding anticipated internal revenue growth, adjusted earnings per share and adjusted earnings per share growth. Statements can generally be identified as forward-looking because they include words such as "believes," "anticipates," "expects," "could," "should" or words of similar meaning. Statements that describe the company's future plans, objectives or goals are also forward-looking statements. Forward-looking statements are subject to assumptions, risks and uncertainties that may cause actual results to differ materially from those contemplated by such forward-looking statements. The factors that may affect the company's results include, among others: pricing and other actions by competitors; the capacity of the company's technology to keep pace with a rapidly evolving marketplace; the impact of market and economic conditions on the financial services industry; the impact of a security breach or operational failure on the company's business; the effect of legislative and regulatory actions in the United States and internationally; the company's ability to comply with government regulations; the company's ability to successfully identify, complete and integrate acquisitions, and to realize the anticipated benefits associated with the same; the impact of the company's strategic initiatives; and other factors included in the company's filings with the SEC, including its Annual Report on Form 10-K for the year ended December 31, 2016 and in other documents that the company files with the SEC. You should consider these factors carefully in evaluating forward-looking statements and are cautioned not to place undue reliance on such statements. The company assumes no obligation to update any forward-looking statements, which speak only as of the date of this press release.

Fiserv, Inc.
Forward-Looking Non-GAAP Financial Measures

Internal Revenue Growth - The company's internal revenue growth outlook for 2017 excludes the effects of acquisitions and dispositions and the impact of postage reimbursements in its Output Solutions business, and includes deferred revenue purchase accounting adjustments. These adjustments are subject to variability and are anticipated to impact 2017 revenue growth by less than 1 percent.

Adjusted Earnings Per Share - The company's adjusted earnings per share outlook for 2017 excludes certain non-cash or other items to enhance shareholders' ability to evaluate the company's performance as such measures provide additional insights into the factors and trends affecting its business. Non-cash or other items may be significant and include, but are not limited to, non-cash deferred revenue adjustments arising from acquisitions, non-cash intangible asset amortization expense associated with acquisitions, non-cash impairment charges, gains or losses from dispositions and unconsolidated affiliates, severance costs, merger and integration costs related to acquisitions, and certain costs associated with the achievement of the company's operational effectiveness objectives. The company estimates that the annual amortization expense for 2017 with respect to acquired intangible assets recorded at September 30, 2017 will approximate \$160 million. Other adjustments to earnings per share that have been incurred to date are presented on page 7. Estimates of these other adjustments on a forward-looking basis are not available due to the variability, complexity and low visibility of these items.

See page 3 for disclosures related to the use of non-GAAP financial measures.
