Fiserv and ISGN Expand Partnership to Deliver Additional Efficiencies to Lenders

Brookfield, Wis., October 25, 2010 - [Fiserv, Inc.](#) (NASDAQ: FISV), the leading global provider of financial services technology solutions, today announced an extended agreement with ISGN, the leading global mortgage technology solutions company. The partnership agreement gives Fiserv clients a seamless user interface between the LoanServ platform from Fiserv and Attorney Case Management powered by ISGN.

The original partnership, which was rolled out in May, connected LoanServ and Attorney Case Management with a real-time interface. That effort was so well received by clients that Fiserv and ISGN collaborated to provide Fiserv clients with both seamless user navigation between the two applications and the ability to conduct default management business from their LoanServ desktop in a completely integrated manner.

"Streamlining technologies and creating transparency throughout the loan servicing process is a priority at Fiserv because it makes loan servicing efficient and intuitive for our clients. This means they spend less time working through the technology and more time working with their customers," said Thomas Gorman, president, Loan Servicing Solutions, Fiserv. "This extended partnership between Fiserv and ISGN is just one more way that Fiserv is addressing the wants and needs of the industry through the LoanServ solution - a win-win for our clients."

ISGN is also partnering with Fiserv to provide automated order placement of fulfillment services to LoanServ clients. These services include appraisals, Broker Price Opinions, Automated Valuation Models, title work and inspections, and asset disposition.

"This partnership is all about simplifying the procurement, adoption and implementation processes for LoanServ clients," said Niraj Patel, group president, ISGN. "The complexity of the loan servicing business calls for a simplified and integrated approach, and we are certainly excited to extend our partnership with Fiserv to help deliver that."
