Item 2.02. Results of Operations and Financial Condition.

On October 28, 2008, Fiserv, Inc. (the "Company") issued a press release announcing its financial results for the quarter ended September 30, 2008. A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated by reference herein.

Item 7.01. Regulation FD Disclosure.

Furnished herewith as Exhibit 99.2 is unaudited consolidated financial information for the Company for 2007 and 2008 which has been recast to report certain insurance businesses that are now held for sale as discontinued operations. The presentation of the Company's historical financial information in Exhibit 99.2 is consistent with the presentation of the Company's financial results for the quarter ended September 30, 2008. In this regard, following Fiserv's sale of a majority interest in its insurance businesses ("Fiserv Insurance") on July 14, 2008, Fiserv reports its 49% share of net income from Fiserv Insurance as "income from investment in unconsolidated affiliate."

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits. The following exhibits are being furnished herewith:

Fiserv Reports Third Quarter 2008 Results
Adjusted EPS up 16 percent to $0.81
Free cash flow through September 30 up 57 percent to $465 million
Company affirms 2008 earnings per share within previous guidance range

Brookfield, Wis., Oct. 28, 2008 –Fiserv, Inc. (NASDAQ: FISV), a leading provider of information technology solutions to the financial industry, today reported financial results for the third quarter of 2008. These financial results reflect the disposition of a 51% interest in Fiserv's insurance operations ("Fiserv Insurance") and beginning on July 15, 2008 the company no longer consolidates the revenues and expenses associated with Fiserv Insurance.

Total GAAP revenue was $1.08 billion for the third quarter compared with $924 million in 2007. Revenue for the year to date was up 32 percent to $3.68 billion compared with $2.79 billion in the prior year period.

GAAP earnings per share for the third quarter were $0.48, including a $0.15 after-tax loss from the sale of the majority interest in Fiserv Insurance due to tax expense associated with the sale, as compared with $0.73 in 2007. GAAP earnings per share for the first nine months of 2008 were $3.08, including $1.41 from discontinued operations, compared with $2.02 in 2007, which included $0.11 from discontinued operations.

Adjusted earnings per share from continuing operations for the quarter were up 16 percent to $0.81 compared with $0.70 for the third quarter of 2007. For the first nine months of the year, adjusted earnings per share were up 23 percent to $2.44 compared with $1.98 in 2007. Adjusted internal revenue growth was flat for the third quarter and up 2 percent for the year to date excluding Fiserv Insurance.

Adjusted operating margin increased 120 basis points to 26.5 percent in the third quarter, and increased 160 basis points to 25.9 percent for the first nine months of 2008 compared with the prior-year periods. The margin expansion resulted primarily from favorable changes in the company’s business mix, including the addition of CheckFree, which was acquired in December of 2007; operating leverage associated with the company’s business model; and capital and expense management across all business lines.

“Overall, we are pleased with our earnings and free cash flow results for both the quarter and year to date, which are consistent with our expectations. At the same time, internal growth continues to be challenged by market conditions impacting certain areas of our business,” said Jeffery Yabuki, President and Chief Executive Officer of Fiserv. “Our business, which is well insulated by our long-term recurring revenue model and a diversified client base, continues to produce earnings and cash flow growth in the current environment.”

THIRD QUARTER BUSINESS AND OPERATING HIGHLIGHTS

- Free cash flow increased 57 percent to $465 million for the first nine months of 2008 compared with the prior year period;
- Adjusted operating margin in the payments segment through September 30 was 29.6 percent, up 310 basis points from the prior year period due to scale efficiencies, business mix, and strong operating leverage across these businesses;
- Adjusted operating margin in the financial segment was 25.0 percent in the first nine months of 2008, a decrease of 50 basis points from the prior year period primarily due to weak results in the company’s lending businesses and reduced higher-margin revenue, such as license fees;
- On Oct. 9, 2008, Fiserv sold CareGain, Inc. to Canopy Financial, a healthcare administration technology solutions provider. CareGain’s results, with annual revenues of less than $10 million, are now included as discontinued operations;
- The company signed 138 clients for its electronic bill payment services in the quarter for a total of more than 400 clients signed for the year to date;
- WireXchange, a fully automated Fiserv solution that enables financial institutions to complete end-to-end wire transfers, added 34 new clients in the quarter, with a total of 65 new financial institution clients installed so far in 2008;
- Fiserv was ranked seventh among the top 100 global risk technology companies in the Chartis RiskTech 100 report issued in October 2008. The global report is recognized as the most comprehensive and prestigious study of the top technology firms active in the risk management market. This is Fiserv’s first entry into the top 100 which ranked the top risk technology firms based on a comprehensive review of the marketplace and a detailed assessment methodology covering functionality, core technology, organizational strength, customer satisfaction and market presence;

- Fiserv won a “Best of Show” award at the Finovate 2008 conference for its new Online Advantage, an integrated online solution that provides integrated online banking, bill pay, personal money management and other value added services;
- Golden 1 Credit Union, the sixth largest credit union in the U.S., signed an agreement with Fiserv’s CheckFree using Consumer Source Capture. Golden 1 will benefit from this technology that allows its members to make home-based check deposits. This feature is designed to streamline their financial needs via personal computing technologies and serve as an effective tool for gaining market share.
- The company repurchased 3.2 million shares of its common stock in the third quarter.

OUTLOOK FOR 2008

Fiserv expects its full-year 2008 adjusted earnings per share from continuing operations to be within a narrowed range of $3.28 to $3.32, which represents growth of 23 to 24 percent compared with adjusted earnings per share from continuing operations of $2.67 in 2007. The company expects fourth quarter 2008 adjusted internal revenue growth of 1 to 3 percent.

“We continue to be on track to achieve our earnings guidance for the year while delivering exceptional free cash flow,” said Yabuki. “We expect to meet our earnings commitments while continuing to invest in products and services which help our clients achieve success and spur future growth.”

EARNINGS CONFERENCE CALL

The company will discuss its third quarter 2008 results on a conference call and Webcast at 4 p.m. CDT on Oct. 28. To register for the event go to www.fiserv.com and click on the Q3 Earnings Webcast icon. Supplemental materials and an accompanying presentation will be available in the “For Investors” section of the website.

USE OF NON-GAAP FINANCIAL INFORMATION

We supplement our reporting of total revenues, operating income, income from continuing operations and earnings per share information determined in accordance with GAAP by using “adjusted revenues,” “adjusted operating income,” “adjusted income from continuing operations,” “adjusted earnings per share from continuing operations,” “adjusted operating margin,” “free cash flow,” “adjusted internal revenue growth,” and “adjusted internal revenue growth excluding Fiserv Insurance” in this earnings release. Management believes that adjustments for certain non-cash or unusual revenue or expense items, and the exclusion of certain pass-through revenues and expenses, enhance our shareholders’ ability to evaluate our performance because such items do not reflect how we manage our operations. Therefore, we exclude these items from GAAP revenue, operating income, income from continuing operations and earnings per share to calculate these non-GAAP measures. In addition, we report “adjusted internal revenue growth excluding Fiserv Insurance” because we recently sold a majority interest in our Insurance segment and, accordingly, believe that these results reflect the performance of our remaining primary operations.

Examples of such non-cash or unusual items may include, but are not limited to, non-cash deferred revenue adjustments arising from acquisitions, non-cash intangible asset amortization expense associated with acquisitions, and merger and integration expenses. We exclude these items to more clearly focus on the factors we believe are pertinent to the management of our operations. We regularly report our adjusted results to our chief executive officer, who uses this information to allocate resources to our various businesses.

Free cash flow and adjusted internal revenue growth are described in detail on page 11. We believe this supplemental information enhances our shareholders' ability to evaluate and understand our core business performance.

These non-GAAP measures should be considered in addition to, and not as a substitute for, revenues, operating income, income from continuing operations and earnings per share or any other amount determined in accordance with GAAP. These non-GAAP measures reflect management's judgment of particular items, and may not be comparable to similarly titled measures reported by other companies.

FORWARD-LOOKING STATEMENTS

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding, anticipated adjusted earnings per share from continuing operations, adjusted internal revenue growth in 2008 and integrated sales and operational effectiveness targets for 2008. Statements can generally be identified as forward-looking because they include words such as "believes," "anticipates," "expects," "should," or words of similar meaning. Statements that describe our future plans, objectives or goals are also forward-looking statements. Forward-looking statements are subject to assumptions, risks and uncertainties that may cause actual results to differ materially from those contemplated by such forward-looking statements. The factors that may adversely affect the company's results include, among others, the company's ability to complete, and the timing of and the proceeds from, the sale of the remainder of the Fiserv ISS business, the company's ability to *successfully integrate CheckFree's operations, changes in clients' demand for the company's products or services, pricing or other actions by competitors, the impact of the company's Fiserv 2.0 initiatives, the health and stability of the financial services industry, a general economic slowdown and other factors included in the company's filings with the SEC, including its Annual Report on Form 10-K. You should consider these factors carefully in evaluating forward-looking statements, and are cautioned not to place undue reliance on such statements. The company assumes no obligation to update any forward-looking statements, which speak only as of the date of this press release.*

(1) The 2008 results include the operations of CheckFree, which was acquired in December 2007. GAAP results for the third quarter and first nine months of 2008 include non-cash amortization of acquisition-related intangible assets in total expenses of $38 million ($0.14 per share) and $119 million ($0.44 per share), compared with $8 million ($0.03 per share) and $22 million ($0.08 per share) in the comparable 2007 periods, respectively, with the increase due primarily to the acquisition of CheckFree.

(2) On July 14, 2008, Fiserv completed the sale of a 51% interest in the majority of its insurance businesses (Fiserv Insurance). After the date of sale, the company no longer consolidates revenues and expenses of Fiserv Insurance and instead reports its 49% share of net income as "income from investment in unconsolidated affiliate." In connection with the transaction the company recorded a pre-tax gain on the sale of its majority interest of $19 million and a related income tax provision of $44 million, resulting in a net after-tax loss of $25 million ($0.15 per share). The company recorded the income tax provision related to the sale of its majority interest due primarily to a lower tax basis in its stock compared with the book basis of the net assets. Excluding the gain on sale of business and related income tax expense, the effective income tax rate from continuing operations would have been 38.9% for the third quarter and 38.7% for the first nine months of 2008.

(3) The company has reported Fiserv ISS, Fiserv Health and certain lending and insurance businesses as discontinued operations.

(1) Merger costs primarily represent expenses associated with the acquisition of CheckFree, including integration project management, retention bonuses and other expenses totaling $12 million in the third quarter and $28 million in the first nine months of 2008. In addition, in connection with the preliminary purchase price allocation, the company estimated the fair value of certain deferred revenue from license fees and other customer payments assumed in connection with the CheckFree acquisition. Revenue totaling $4 million in the third quarter and $20 million in the first nine months of 2008 would have been recognized by CheckFree or companies it acquired consistent with past practices. However, the company did not record such revenue during 2008 due to the deferred revenue purchase accounting adjustment recorded in accordance with GAAP. The combination of these items, net of income taxes, resulted in a total of $0.06 per share in the third quarter and $0.18 per share in the first nine months of 2008.

(2) Represents the net after-tax loss on the sale of a 51% interest in Fiserv Insurance.

(1) Adjusted internal revenue growth percentages are measured as the increase in adjusted revenues (see page 10) for the current period less “acquired revenue from acquisitions” divided by adjusted revenues from the prior year period plus “acquired revenue from acquisitions.” “Acquired revenue from acquisitions” was $298 million ($39 million in the Financial segment and $259 million in the Payments segment) for the third quarter of 2008 and $865 million ($108 million in the Financial segment and $757 million in the Payments segment) for the first nine months of 2008 and represents pre-acquisition adjusted revenue of acquired companies, less dispositions, for the comparable prior year period.

(2) Total adjusted internal revenue growth percentages are measured as explained above and are calculated using adjusted revenues for Total Company less Insurance as reflected on page 10.

Adjusted internal revenue growth percentage is a non-GAAP financial measure that the company believes is useful to investors because it presents internal revenue growth excluding postage reimbursements in the company’s output solutions business and the deferred revenue purchase accounting adjustment. See page 3 for disclosures related to the use of non-GAAP financial information.

The free cash flow calculation above has been adjusted for certain non-recurring payments totaling $25 million in the first nine months of 2008 related to after-tax merger costs and certain one-time liabilities assumed on the opening balance sheets of acquired companies. Management believes it is appropriate to exclude these payments from the normal calculation of free cash flow because they may not be indicative of the future free cash flow of the company.

(In millions, unaudited)

Key Metrics	2008 Objective	YTD 2008 Attainment Dollars	YTD 2008 Attainment Percentage
Integrated Sales [1]	$ 65	$ 56	86%
Operational Effectiveness [2]	$ 20	$ 19	95%
Overall Sales Quota Attainment [3]	100%	—	99%

(1) Integrated Sales targets are exclusive of amounts included in the annual sales quota and include sales from a designated list of additional products sold to core processing clients. Dollar value is the amount of recurring annual revenue which does not include any one-time revenue.

(2) Operational Effectiveness targets represent cost savings associated with Fiserv 2.0. The "2008 Objective" is the total amount of savings targeted to be attained in the measurement period which is incremental to the amount attained in 2007.

(3) Overall Sales Quota Attainment is the traditional company-wide sales quota, which includes CheckFree and excludes incremental existing client sales included in the Integrated Sales metric. The 2008 attainment percentage represents year-to-date attainment of sales targets.
