For the quarterly period ended June 30, 2026

OR

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.**

For the transition period from _____ to _____

Commission File Number 1-38962

FISERV, INC.
(Exact Name of Registrant as Specified in Its Charter)

Wisconsin
(State or Other Jurisdiction of
Incorporation or Organization)

39-1506125
(I. R. S. Employer
Identification No.)

600 N. Vel R. Phillips Avenue, Milwaukee, WI 53203
(Address of Principal Executive Offices and zip code)

(262) 879-5000
(Registrant's Telephone Number, Including Area Code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.01 per share	FISV	The NASDAQ Stock Market LLC
1.125% Senior Notes due 2027	FISV27	The NASDAQ Stock Market LLC
2.875% Senior Notes due 2028	FISV28C	The NASDAQ Stock Market LLC
1.625% Senior Notes due 2030	FISV30	The NASDAQ Stock Market LLC
3.750% Senior Notes due 2030	FISV30A	The NASDAQ Stock Market LLC
3.000% Senior Notes due 2031	FISV31	The NASDAQ Stock Market LLC
4.500% Senior Notes due 2031	FISV31A	The NASDAQ Stock Market LLC
3.500% Senior Notes due 2032	FISV32	The NASDAQ Stock Market LLC
4.250% Senior Notes due 2034	FISV34	The NASDAQ Stock Market LLC
4.000% Senior Notes due 2036	FISV36	The NASDAQ Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☒	Accelerated filer	☐
Non-accelerated filer	☐	Smaller reporting company	☐
		Emerging growth company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of July 31, 2026, there were 531,766,721 shares of common stock, \$0.01 par value, of the registrant outstanding.

Notes to Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements for the three and six months ended June 30, 2026 and 2025 are unaudited. In the opinion of management, all adjustments necessary for a fair presentation of the consolidated financial statements have been included. Such adjustments consisted of normal recurring items. Interim results are not necessarily indicative of results for a full year. The consolidated financial statements and accompanying notes are presented as permitted by Form 10-Q and do not contain certain information included in the annual consolidated financial statements and accompanying notes of Fiserv, Inc. (the “Company”). These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2025.

Principles of Consolidation

The consolidated financial statements include the accounts of Fiserv, Inc. and its subsidiaries in which the Company holds a majority controlling financial interest. All intercompany transactions and balances between the Company and its subsidiaries have been eliminated in consolidation. Control is typically established when ownership and voting interests in an entity are greater than 50%. Investments in which the Company has significant influence but not control are accounted for using the equity method of accounting, for which the Company’s share of net income or loss is reported within income (loss) from investments in unconsolidated affiliates, and the related tax expense or benefit is reported within the income tax provision in the consolidated statements of income. Significant influence over an affiliate’s operations generally coincides with an ownership interest of between 20% and 50%; for partnerships and limited liability companies, an ownership interest of between 3% and 50%; or board of director representation may also constitute significant influence.

Noncontrolling interests in entities of which the Company maintains a majority controlling financial interest represent the minority shareholders’ share of the net income or loss and equity in consolidated subsidiaries and are presented as a separate line item within the consolidated statements of income and as a component of equity in the consolidated balance sheets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S.”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ materially from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and investments with original maturities of 90 days or less and are stated at cost in the consolidated balance sheets, which approximates market value. Cash and cash equivalents held on behalf of merchants and other payees are included in settlement assets in the consolidated balance sheets. The changes in settlement cash and cash equivalents are included in settlement activity, net within cash flows from financing activities in the consolidated statements of cash flows. Cash and cash equivalents that are restricted from use due to contractual or legal restrictions are included in other long-term assets in the consolidated balance sheets.

The following table provides a reconciliation between cash and cash equivalents on the consolidated balance sheets and the consolidated statements of cash flows:

(In millions)	June 30, 2026	December 31, 2025	June 30, 2025
Cash and cash equivalents on the consolidated balance sheets	\$ 627	\$ 798	\$ 999
Cash and cash equivalents included in settlement assets	1,341	1,978	1,956
Restricted cash	35	26	14
Total cash and cash equivalents on the consolidated statements of cash flows	<u>\$ 2,003</u>	<u>\$ 2,802</u>	<u>\$ 2,969</u>

Allowance for Doubtful Accounts

The Company analyzes the collectability of trade accounts receivable by considering historical bad debts and issued client credits, client creditworthiness, current economic trends, changes in client payment terms and collection trends when evaluating the adequacy of the allowance for doubtful accounts. Any change in the assumptions used in analyzing a specific account receivable may result in an additional allowance for doubtful accounts being recognized in the period in which the change occurs. The allowance for doubtful accounts was \$86 million and \$84 million at June 30, 2026 and December 31, 2025, respectively.

Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets consisted of the following:

(In millions)	June 30, 2026	December 31, 2025
Prepaid maintenance, postage and insurance	\$ 385	\$ 334
Other prepaid expenses	304	269
Total prepaid expenses ⁽¹⁾	689	603
Income tax receivables ⁽²⁾	129	148
Net merchant cash advances, including Clover Capital program	425	564
Settlement anticipation cash advances	1,007	1,223
Other current assets	827	858
Total other current assets	2,388	2,793
Total prepaid expenses and other current assets	\$ 3,077	\$ 3,396

⁽¹⁾ Prepaid expenses represent advance payments for goods and services to be consumed in the future.

⁽²⁾ Includes receivables associated with transferable federal tax credits (see Note 14).

The Company offers merchants advance access to capital, primarily through its Clover Capital program. Under this program, merchants sell fixed amounts of their future credit card receivables to the Company in exchange for an up-front purchase price payment. Future credit card receivables purchased by the Company under its merchant cash advance programs, including Clover Capital, were \$454 million and \$598 million at June 30, 2026 and December 31, 2025, respectively. The Company maintained an allowance for credit losses of \$29 million and \$34 million at June 30, 2026 and December 31, 2025, respectively. The allowance reflects an estimate of expected credit losses based on collection performance trends, current economic conditions, and reasonable and supportable forecasts. For the six months ended June 30, 2026, merchant cash advances, which are generally collected over a period of six to twelve months, are presented on a gross basis within investing activities in the consolidated statement of cash flows. For the six months ended June 30, 2025, merchant cash advances were presented on a net basis, along with settlement anticipation cash advances as described below, within investing activities in the consolidated statement of cash flows.

In May 2026, the Company entered into asset purchase and sale agreements with certain third parties providing for the monthly sale of certain future credit card receivables originated under the Company's merchant cash advance programs described above. Aggregate proceeds, subject to additional consideration based upon specified return thresholds (see Note 8), from the sales of merchant cash advance receivables, under these arrangements were \$152 million during the six months ended June 30, 2026. The Company recognizes interest-related income earned on, and gains on sales of, merchant cash advances in processing and services revenue in the consolidated statements of income (see Note 3).

The Company classifies merchant cash advances as held for investment when it has the intent and ability to hold the receivables for the foreseeable future, until maturity, or until payoff. The Company classifies merchant cash advances as held for sale when it has both the intent and ability to sell all of its rights, title, and interest in the receivables to third-party investors.

Transfers of receivables originated under the Company's merchant cash advance programs to third-party investors are accounted for as sales when control has transferred and the transferred assets are legally isolated. The Company continues to service sold receivables and receives a market-based fee for servicing such third party receivables. The respective third parties maintain contractual rights, in their sole discretion, to terminate the asset servicing agreements or dissolve the entities that are party to the asset purchase and sale agreements.

Advances classified as held for sale at origination are presented as a component of cash flows from operating activities, while advances held for investment at origination are presented as a component of cash flows from investing activities in the consolidated statement of cash flows. There were no merchant cash advances classified as held for sale as of June 30, 2026.

The Company also offers merchants within its international operations advance access to capital through its settlement anticipation program. Under this program, the Company provides merchants the opportunity to receive settlement cash payments in advance in exchange for their receivables from card issuers, including when cardholders have elected to pay over time in installments. These local currency denominated arrangements are primarily associated with the Company's operations in Latin America, the most significant of which are denominated in Argentine Peso and Brazilian Real. Settlement anticipation cash advances, the majority of which are collected within 30 days, are presented on a net basis within investing activities in the consolidated statements of cash flows.

Settlement Assets and Obligations

Settlement assets and obligations represent intermediary balances arising from the settlement process, which involves the transfer of funds among card issuers, payment networks, processors, merchants and consumers, and collateral amounts held to manage merchant credit risk, primarily associated with the Company's merchant acquiring services. As a processor, the Company facilitates the clearing and settlement activity for the merchant and records settlement assets and obligations upon processing a payment transaction. Settlement assets represent cash received or amounts receivable from agents, payment networks, bank partners, merchants or direct consumers. Settlement obligations represent amounts payable to merchants and payees.

Certain merchant settlement assets (included within settlement receivables) that relate to settlement obligations are held by partner banks. Although the Company does not have legal ownership of these assets, it has the right to use them to satisfy the related settlement obligations. The Company records settlement obligations for amounts payable to merchants and for outstanding payment instruments issued to payees that have not yet been presented for settlement.

Assets Held For Sale

The Company classifies assets (or an asset disposal group) as held for sale when there is a committed plan to sell, the assets are ready and actively being marketed, and it is probable that the sale will be completed within one year at a reasonable price. Assets, and any associated liabilities, classified as held for sale are presented separately in the consolidated balance sheets and are measured at the lower of their carrying amount or fair value less costs to sell. Upon classification as held for sale, the Company ceases depreciation and amortization of the related assets. Any subsequent changes in estimated fair value less costs to sell are recognized as gains or losses in the consolidated statements of income. Additional information regarding the Company's assets held for sale is included in Note 4 to the consolidated financial statements.

Allowance for Merchant Credit Losses

With respect to the Company's merchant acquiring business, the Company's merchant customers have the legal obligation to refund any charges properly reversed by the cardholder. However, in the event the Company is not able to collect the refunded amounts from the merchants, the Company may be liable for the reversed charges. The Company's risk in this area primarily relates to situations where a cardholder has purchased goods or services to be delivered in the future. The Company requires cash deposits, guarantees, letters of credit or other types of collateral from certain merchants to mitigate this risk. Collateral held by the Company, or held by partner banks for the Company's benefit, is classified within settlement assets, and the obligation to repay the collateral is classified within settlement obligations in the consolidated balance sheets. The amount of merchant collateral available to the Company was \$518 million and \$588 million at June 30, 2026 and December 31, 2025, respectively. The Company also utilizes a number of systems and procedures to manage merchant credit risk. Despite these efforts, the Company experiences losses due to merchant defaults. The aggregate merchant credit loss expense, recognized by the Company within cost of processing and services in the consolidated statements of income, was \$32 million and \$33 million for the three months ended June 30, 2026 and 2025, respectively, and \$66 million and \$61 million for the six months ended June 30, 2026 and 2025, respectively.

The Company maintains an allowance for merchant credit losses that are expected to exceed the amount of merchant collateral. The allowance includes estimated losses from anticipated chargebacks and fraud events that have been incurred on merchant payment transactions that have been processed but not yet reported to the Company, which is recorded within accounts payable and other current liabilities in the consolidated balance sheets, as well as estimated losses on refunded amounts to cardholders that have not yet been collected from the merchants, which is recorded within prepaid expenses and other current assets in the consolidated balance sheets. The allowance is based primarily on the Company's historical experience of credit losses and other factors such as changes in economic conditions or increases in merchant fraud. The aggregate merchant credit loss allowance was \$50 million and \$46 million at June 30, 2026 and December 31, 2025, respectively.

Property and Equipment

Property and equipment is reported at cost. Depreciation of property and equipment is computed primarily using the straight-line method over the shorter of the estimated useful life of the asset or the leasehold period, if applicable. During the six months ended June 30, 2026, the Company entered into sale leaseback arrangements for certain of its facilities for an aggregate net sales price of \$201 million. The sale of these facilities in the first six months of 2026 resulted in an aggregate gain of \$83 million recorded within net gain on sale of assets in the consolidated statement of income. The leasebacks of these facilities are classified as operating leases and are recorded as right-of-use assets and lease liabilities in the consolidated balance sheet.

Goodwill

Goodwill represents the excess of purchase price over the fair value of identifiable assets acquired and liabilities assumed in a business combination. The Company evaluates goodwill for impairment on an annual basis, or more frequently if circumstances indicate possible impairment. Goodwill is tested for impairment at a reporting unit level, which is one level below the Company's operating segments.

During its annual impairment assessment as of October 1, 2025, the Company performed a quantitative test for each of its reporting units and determined that its goodwill was not impaired as the estimated fair values exceeded the respective carrying values for each of the Company's reporting units. Subsequently, the Company determined that a triggering event occurred during the fourth quarter of 2025 due to a significant decline in its stock price, and therefore performed an additional quantitative goodwill impairment test for all reporting units as of December 31, 2025. The Company determined that its goodwill was not impaired as of December 31, 2025 as the estimated fair values exceeded the respective carrying values for each of the Company's reporting units. At December 31, 2025, fair values exceeded carrying values by less than 15% for eight of the Company's reporting units with an aggregate goodwill balance of \$18.5 billion.

The Company determined that there have been no material events or changes during the first six months of 2026 that would impact the estimates and assumptions used in the goodwill impairment test as of December 31, 2025. However, it is reasonably possible that sustained decreases in the Company's stock price; future developments related to changes in forecasted revenue growth rates or operating margins; changes in the interest or currency exchange rate environments; a shift in strategic initiatives; a deterioration in financial performance within a particular reporting unit; or significant changes in the composition of, or assumptions used in, the quantitative test for certain of the Company's reporting units (such as an increase in risk-adjusted discount rates) could have a material impact on one or more of the estimates and assumptions used to evaluate goodwill impairment in subsequent periods. There is no accumulated goodwill impairment for the Company through June 30, 2026.

Foreign Currency

The U.S. dollar is the functional currency of the Company's U.S.-based and certain foreign-based businesses. Where the functional currency of subsidiaries differs from the U.S. dollar, assets and liabilities are translated into U.S. dollars at the exchange rates in effect at the balance sheet date. Revenue and expenses are translated at the average exchange rates during the reporting period. Gains and losses from foreign currency translation are recorded as a separate component of accumulated other comprehensive loss. Gains and losses from foreign currency transactions are included in determining net income for the reporting period.

Financial statements of subsidiaries located in highly inflationary economies outside of the U.S. are remeasured into U.S. dollars, and the foreign currency gains and losses from the remeasurement of monetary assets and liabilities are reflected in the consolidated statements of income, rather than as foreign currency translation within accumulated other comprehensive loss in the consolidated balance sheets. The remeasurement of monetary assets and liabilities of subsidiaries located in Argentina, a highly inflationary economy, resulted in foreign currency exchange losses of \$30 million and \$46 million for the three months ended June 30, 2026 and 2025, respectively, and \$9 million and \$64 million for the six months ended June 30, 2026 and 2025, respectively, which is included within other income (expense), net in the consolidated statements of income.

To reduce exposure to changes in the value of the Company's net investments in certain of its foreign currency-denominated subsidiaries due to changes in foreign currency exchange rates, the Company uses fixed-to-fixed cross-currency rate swap contracts and foreign currency-denominated debt as economic hedges of its net investments in such foreign currency-denominated subsidiaries. Foreign currency transaction gains or losses on the qualifying net investment hedge instruments are recorded as foreign currency translation, net of tax, within other comprehensive income (loss) in the consolidated statements of comprehensive income and will remain in accumulated other comprehensive loss within the consolidated balance sheets until the sale or complete liquidation of the underlying foreign currency-denominated subsidiaries.

Derivatives

Derivatives are entered into for periods consistent with related underlying exposures and are recorded in the consolidated balance sheets as either an asset or liability measured at fair value. If the derivative is designated as a cash flow hedge, changes in the fair value of the derivative are recorded as a component of accumulated other comprehensive loss and recognized in the consolidated statements of income when the hedged item affects earnings. If the derivative is designated as a net investment hedge, changes in the fair value of the derivative, net of tax, are recorded in the foreign currency translation component of other comprehensive income (loss) until the sale or complete liquidation of the underlying net investment. If the derivative is designated as a fair value hedge, changes in the fair value of the derivative are recorded in the same line item as the changes in the fair value of the hedged item and recognized in the consolidated statements of income. To the extent a derivative is not designated as a hedge, changes in fair value are recognized in the consolidated statements of income. The Company's policy is to enter into derivatives as economic hedges with creditworthy institutions to limit exposure to changing interest rates and foreign currency rate fluctuations, and not to enter into such derivatives for speculative purposes. Additional information regarding the Company's derivatives and hedging instruments is included in Note 7 to the consolidated financial statements.

Redeemable Noncontrolling Interest

The minority partner in one of the Company's merchant alliance joint ventures previously maintained a redeemable noncontrolling 1% interest which was presented outside of equity and carried at its estimated redemption value. The minority partner was entitled to a contractually determined share of the entity's income, and the joint venture agreement contained redemption features whereby the interest held by the minority partner was redeemable either (i) at the option of the holder or (ii) upon the occurrence of an event that was not solely within the Company's control.

Effective June 2024, the Company and the merchant alliance joint venture minority partner mutually agreed to terminate the joint venture agreement on September 1, 2024. Under the provisions of the separation agreement, the Company redeemed the minority partner's membership interest in exchange for a future distribution of certain merchant contracts. The distribution of certain merchant contracts for the redemption of the minority partner's membership interest was settled in the third quarter of 2025, resulting in a gain of \$89 million recorded within net gain on sale of assets in the consolidated statement of income. There was no associated tax impact on this gain. The Company maintains an ongoing relationship with the former minority partner to provide processing and other support services following the termination of the joint venture agreement.

Interest Expense, Net

Interest expense, net consists of interest expense primarily associated with the Company's outstanding borrowings and finance lease obligations, as well as interest income primarily associated with the Company's investment securities. Interest expense, net consisted of the following:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Interest expense	\$ (376)	\$ (376)	\$ (737)	\$ (715)
Interest income	6	11	20	19
Interest expense, net	<u>\$ (370)</u>	<u>\$ (365)</u>	<u>\$ (717)</u>	<u>\$ (696)</u>

2. Recent Accounting Pronouncements

Recently Adopted Accounting Pronouncement

In 2025, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2025-05, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets* ("ASU 2025-05"), which provides a practical expedient for estimating expected credit losses on current trade receivables and contract assets by assuming that current conditions persist over the life of these assets. For all entities, the provisions within ASU 2025-05 are effective for annual reporting periods beginning after December 15, 2025, and for interim reporting periods within those annual reporting periods. The provisions within ASU 2025-05 are required to be applied prospectively. The Company adopted ASU 2025-05 effective January 1, 2026, and the adoption did not have a material impact on the Company's consolidated financial statements.

Recently Issued Accounting Pronouncements

In 2025, the FASB issued ASU No. 2025-09, *Derivatives and Hedging (Topic 815): Hedge Accounting Improvements* (“ASU 2025-09”), which is intended to more closely align hedge accounting with the economics of an entity’s risk management activities. ASU 2025-09 includes targeted improvements, primarily related to cash flow hedging, involving expanded eligibility for grouping individual forecasted transactions with similar risk exposure; the addition of an alternative model for the application of hedge accounting to cash flow hedges of interest payments on choose-your-rate debt instruments; the ability to designate a variable price component of a forecasted purchase or sale of a nonfinancial asset; and refines the guidance for net written options as hedging instruments and for a dual hedge strategy involving foreign currency denominated debt. For public entities, the provisions within ASU 2025-09 are effective for fiscal years beginning after December 15, 2026, and for interim reporting periods within those fiscal years. The provisions within ASU 2025-09 are required to be applied prospectively. The Company is currently assessing the provisions of ASU 2025-09; however, the Company does not expect the adoption of ASU 2025-09 to have a material impact on its consolidated financial statements and disclosures.

In 2024, the FASB issued ASU No. 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses* (“ASU 2024-03”), which requires disaggregation of certain expense captions into specified categories in disclosures within the footnotes to the financial statements. Under ASU 2024-03, entities will be required to disaggregate information, in tabular format, about specific natural expense categories underlying certain income statement expense line items that are considered ‘relevant’, such as purchases of inventory, employee compensation, depreciation, and intangible asset amortization. Additionally, ASU 2024-03 requires the disclosure of selling expenses, along with how an entity defines such expenses. For public entities, the provisions within ASU 2024-03 (as further clarified through ASU No. 2025-01, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40)*) are effective for the first annual reporting period beginning after December 15, 2026, and for interim reporting periods within annual reporting periods beginning after December 15, 2027. The provisions within ASU 2024-03 are required to be applied prospectively; however, such provisions may be applied retrospectively for all comparative periods following the effective date. The Company is currently assessing the impact the adoption of ASU 2024-03 will have on its consolidated financial statement disclosures.

In 2025, the FASB issued ASU No. 2025-06, *Targeted Improvements to the Accounting for Internal-Use Software* (“ASU 2025-06”), to modernize the accounting guidance for costs to develop software for internal use. ASU 2025-06 amends the existing standard that refers to various stages of a software development project to better align with current software development methods, such as agile programming. Under ASU 2025-06, cost capitalization begins when management has authorized and committed to funding the project, and it is probable the project will be completed and the software will be used to perform its intended function. For all entities, the provisions within ASU 2025-06 are effective for fiscal years beginning after December 15, 2027, and for interim reporting periods within those fiscal years. The provisions within ASU 2025-06 can be applied either retrospectively through a cumulative-effect adjustment, prospectively to software costs incurred after the adoption date (on existing, in-process software projects or new projects), or on a modified prospective basis. The Company is currently assessing the impact the adoption of ASU 2025-06 will have on its consolidated financial statements and disclosures.

In 2025, the FASB issued ASU No. 2025-10, *Government Grants (Topic 832): Accounting for Government Grants Received by Business Entities* (“ASU 2025-10”), which amends Topic 832 to provide specific guidance on the recognition, measurement, presentation and disclosure of government grants received by business entities, including both monetary and certain non-monetary grants. For public entities, the provisions within ASU 2025-10 are effective for annual and interim periods beginning after December 15, 2028, with early adoption permitted. The provisions within ASU 2025-10 can be applied either on a modified prospective, modified retrospective, or on a retrospective approach through a cumulative-effect adjustment. The Company is currently assessing the impact the adoption of ASU 2025-10 will have on its consolidated financial statements and disclosures.

3. Revenue Recognition

The Company generates revenue from the delivery of processing, service and product solutions. Revenue is measured based on consideration specified in a contract with a customer, and excludes any amounts collected on behalf of third parties. The Company recognizes revenue when it satisfies a performance obligation by transferring control over a product or service to a customer which may be at a point in time or over time.

Disaggregation of Revenue

The Company’s operations are comprised of the Merchant Solutions (“Merchant”) and the Financial Solutions (“Financial”) reportable segments (see Note 18). The table below presents the Company’s revenue disaggregated by business line and includes a reconciliation with its reportable segments. The Company serves its global client base by working among its geographic teams across various regions, including the U.S. and Canada; Europe, Middle East and Africa (“EMEA”); Latin

America (“LATAM”); and Asia Pacific (“APAC”). The majority of the Company’s revenue is earned in the U.S., with revenue generated within its EMEA, LATAM and APAC regions comprising approximately 16% of total revenue for both the three and six months ended June 30, 2026 and approximately 16% and 15% of total revenue for the three and six months ended June 30, 2025, respectively.

(In millions) Revenue by Business Line	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Small Business	\$ 1,760	\$ 1,774	\$ 3,369	\$ 3,368
Enterprise	584	587	1,096	1,089
Processing	264	283	516	559
Total Merchant Solutions segment revenue	\$ 2,608	\$ 2,644	\$ 4,981	\$ 5,016
Digital Payments	\$ 993	\$ 1,051	\$ 1,940	\$ 2,046
Issuing	784	876	1,553	1,690
Banking	578	625	1,164	1,233
Total Financial Solutions segment revenue	\$ 2,355	\$ 2,552	\$ 4,657	\$ 4,969
Corporate and Other	\$ 329	\$ 320	\$ 681	\$ 661
Total Revenue ⁽¹⁾	\$ 5,292	\$ 5,516	\$ 10,319	\$ 10,646

⁽¹⁾ Total revenue includes \$343 million and \$667 million for the three and six months ended June 30, 2026, respectively, and \$377 million and \$708 million for the three and six months ended June 30, 2025, respectively, which represents revenue recognized outside the scope of Accounting Standards Codification (“ASC”) Topic 606, *Revenue from Contracts with Customers* (“ASC 606”). Such revenue primarily consists of interest-related income earned on, and gains on sales of, merchant and settlement anticipation cash advances; interest income earned on short-term investments of subscriber funds and intermediary settlement cash balances; and lease income associated with point-of-sale (“POS”) terminal equipment.

Contract Balances

The following table provides information about contract assets and contract liabilities from contracts with customers:

(In millions)	June 30, 2026	December 31, 2025
Contract assets	\$ 941	\$ 885
Contract liabilities	1,079	1,124

Contract assets, reported within other long-term assets in the consolidated balance sheets, primarily relate to customer discounts (contract incentives) where revenue is recognized and payment of consideration under the contract is contingent upon the transfer of services to a customer over the contractual period. Contract liabilities primarily relate to advance consideration received from customers (deferred revenue) for which transfer of control occurs, and therefore revenue is recognized, as services are provided. Contract balances are reported in a net contract asset or liability position on a contract-by-contract basis at the end of each reporting period. The Company recognized \$572 million of revenue during the six months ended June 30, 2026 that was included in the contract liabilities balance at the beginning of the period.

Transaction Price Allocated to Remaining Performance Obligations

The following table includes estimated processing and services revenue expected to be recognized in the future related to performance obligations that were unsatisfied (or partially unsatisfied) at June 30, 2026:

(In millions)

Year Ending December 31,

Remainder of 2026	\$	1,315
2027		2,266
2028		1,691
2029		1,085
Thereafter		1,136

The Company applies the optional exemption under ASC 606 and does not disclose information about remaining performance obligations for account- and transaction-based processing fees that qualify for recognition under the as-invoiced practical expedient. These multi-year contracts contain variable consideration for stand-ready performance obligations for which the exact quantity and mix of transactions to be processed are contingent upon the customer's request. The Company also applies the optional exemptions under ASC 606 and does not disclose information for variable consideration that is a sales-based or usage-based royalty promised in exchange for a license of intellectual property or that is allocated entirely to a wholly unsatisfied performance obligation or to a wholly unsatisfied promise to transfer a distinct good or service in a series. The amounts disclosed above as remaining performance obligations consist primarily of fixed or monthly minimum processing fees and maintenance fees under contracts with an original expected duration of greater than one year.

4. Acquisitions, Dispositions and Other Transactions

Acquisitions were accounted for as business combinations using the acquisition method of accounting in accordance with ASC Topic 805, *Business Combinations*. Purchase price was allocated to the respective identifiable assets acquired and liabilities assumed based on the estimated fair values at the date of acquisitions. The results of operations for the following acquired businesses are included in the consolidated results of the Company from the respective dates of acquisition. Pro forma information for these acquired businesses is not provided because they did not have a material effect, individually or in the aggregate, on the Company's consolidated results of operations.

Acquisitions of Businesses

Acquisition of StoneCastle

On December 17, 2025, the Company acquired StoneCastle Cash Management, LLC, INDX Processing, LLC and StoneCastle Trust Co. (collectively, "StoneCastle"), a provider of deposit funding solutions, for \$416 million, net of \$4 million of acquired cash. StoneCastle is included within the Financial segment and provides its network of depository institutions easy access to stable, cost efficient deposit funding.

The preliminary allocation of purchase price resulted in the recognition of identifiable intangible assets of approximately \$165 million, primarily acquired software and technology with an estimated useful life of 7 years, approximately \$247 million of goodwill and approximately \$8 million of other net assets, including acquired cash. The allocation of the purchase price is preliminary and is subject to further adjustment, pending additional refinement and final completion of valuations. Goodwill, which is expected to be deductible for tax purposes, is primarily attributed to the anticipated value created by enabling the Company to offer technology-enabled deposit funding solutions to both its financial institution customers and merchant acquiring enterprise clients.

Acquisition of CCV

On March 18, 2025, the Company acquired CCV Group B.V. ("CCV"), a Netherlands-based supplier of POS payment solutions, for \$219 million, net of \$34 million of acquired cash. CCV is included within the Merchant segment and expands the Company's network of payment solutions.

During the first quarter of 2026, the Company identified and recorded measurement period adjustments to the preliminary CCV purchase price allocation, including refinements to valuations of acquired intangible assets, which were the result of additional analysis performed and information identified based on facts and circumstances that existed as of the acquisition date. These measurement period adjustments resulted in a decrease to identifiable intangible assets of \$15 million, an increase in goodwill of \$14 million, and an increase in other net assets of \$1 million. Such measurement period adjustments did not have a material

impact on the Company's consolidated statement of income. The allocation of the purchase price was finalized in the first quarter of 2026 and resulted in the recognition of identifiable intangible assets, including customer relationships, of \$103 million with a useful life of 8 years, acquired software and technology of \$2 million with a useful life of 1 year and an acquired trademark of \$4 million with a useful life of 2 years; \$120 million of goodwill; and \$24 million of other net assets, including acquired cash. Goodwill, which is not deductible for tax purposes, is primarily attributed to the anticipated value created by enabling the Company's ability to accelerate the deployment of its Clover® POS and business management platform, providing enhanced capabilities and innovation to an expansive combined merchant and partner base across Europe.

Acquisition of Payfare

On March 2, 2025, the Company acquired Payfare, Inc. ("Payfare"), a Canada-based provider of program management solutions powering instant access to earnings and banking solutions for workforces, for a purchase price of \$95 million, net of \$46 million of acquired cash. Payfare is included within the Financial segment and expands the Company's embedded finance capabilities.

The allocation of the purchase price was finalized in the fourth quarter of 2025 and resulted in the recognition of identifiable intangible assets, including acquired software and technology of \$22 million with a useful life of 7 years and customer relationships of \$14 million with a useful life of 14 years; \$56 million of goodwill; and \$49 million of other net assets, including acquired cash. Goodwill, which is not deductible for tax purposes, is primarily attributed to the anticipated value created by further enhancing the Company's finance solutions in embedded banking, payments and lending for large enterprises and financial institutions.

Other Acquisitions

On October 1, 2025, the Company acquired a portion of The Toronto-Dominion Bank's merchant processing business in Canada ("TD Merchant Canada"). TD Merchant Canada is included within the Merchant segment and expands the footprint of the Company's Clover platform. On September 25, 2025, the Company acquired the Smith Consulting Group, LLC business ("SCG"), an operational consulting service utilized by community banks and credit unions across the U.S. SCG is included within the Financial segment and supports the Company's ability to provide consultative engagement to enhance community banks' and credit unions' strategic investments. On September 4, 2025, the Company acquired CardFree Inc. ("CardFree"), an all-in-one platform delivering integrated order, payment and loyalty solutions for merchants. CardFree is included within the Merchant segment and further expands the capabilities of the Company's Clover platform across the hospitality, restaurant and lodging industries. On June 4, 2025, the Company acquired Money Money Serviços Financeiros S.A. ("Money Money"), a Brazil-based provider of risk analysis and credit decisioning solutions. Money Money is included within the Merchant segment and expands the Company's payment and financial service capabilities, enabling access to working capital and other payment solutions for small and medium-sized businesses. On April 4, 2025, the Company acquired Pinch Payments NZ Limited (together with Zootive Pty Ltd, "Pinch Payments"), an Australia-based payment facilitator. Pinch Payments is included within the Merchant segment and expands the Company's flexible payment services for its partners and clients, and presence within the Asia-Pacific region.

The Company acquired these businesses for an aggregate purchase price, including deferred payments, of \$127 million, including earn-out provisions estimated at a fair value of \$35 million (see Note 8). The allocation of purchase price for these acquisitions resulted in the recognition of identifiable intangible assets, including software and technology of \$31 million with a weighted average useful life of 7 years and customer relationships of \$18 million with a weighted average useful life of 6 years; \$73 million of goodwill; and \$5 million of other net assets. The purchase price allocations for Money Money and Pinch Payments were finalized in the third quarter of 2025, for SCG in the fourth quarter of 2025, and for CardFree and TD Merchant Canada in the first quarter of 2026. Measurement period adjustments did not have a material impact on the Company's consolidated statement of income. Goodwill for these acquisitions is primarily attributed to the anticipated value created by expanding the reach of the Company's Clover POS and business management platform and further enabling the Company's payment solutions, financial service capabilities and advisory services for financial institutions. For tax purposes, goodwill related to the SCG and TD Merchant Canada acquisitions is deductible; however, goodwill related to the Money Money, Pinch Payments and CardFree acquisitions is not deductible.

Disposition of Business and Other Transactions

In May 2026, the Company entered into a definitive agreement to sell its student loan servicing business, which is reported within the Financial segment. The transaction is expected to close in the third quarter of 2026, subject to customary closing conditions. As of June 30, 2026, the Company determined that this pending divestiture met the criteria to be classified as held for sale. Accordingly, the assets and liabilities of the student loan servicing business are classified as assets held for sale and liabilities associated with assets held for sale within the consolidated balance sheet. The major classes of assets and liabilities

held for sale as of June 30, 2026 include trade accounts receivable, capitalized software, contract costs, allocated goodwill, and contract liabilities, which are presented in aggregate within the consolidated balance sheet.

In August 2026, the Company formed a joint venture, MoneyPass Group, of which it will maintain a 49% ownership interest, encompassing its MoneyPass Network, ATM Managed Services and Cash Intelligence businesses, which are reported within the Financial segment.

On September 5, 2025, the Company acquired the remaining 49.9% ownership interest, including cash held of \$195 million, in AIB Merchant Services (“AIBMS”), an Ireland-based payments solution provider, for \$420 million. On April 17, 2025, the Company acquired the remaining 19% ownership interest in ICICI Merchant Services Private Limited, an India-based merchant acceptance business, for \$22 million. The Company previously held a majority controlling financial interest in each of these subsidiaries, which continue to be consolidated and reported within the Merchant segment.

5. Intangible Assets

Identifiable intangible assets consisted of the following:

(In millions)	Gross Carrying Amount	Accumulated Amortization	Net Book Value
June 30, 2026			
Customer relationships	\$ 14,696	\$ 10,108	\$ 4,588
Acquired software and technology	2,187	1,505	682
Trade names	621	481	140
Purchased software	1,354	370	984
Capitalized software and other intangibles	5,409	2,091	3,318
Total	<u>\$ 24,267</u>	<u>\$ 14,555</u>	<u>\$ 9,712</u>
December 31, 2025			
Customer relationships	\$ 14,773	\$ 9,680	\$ 5,093
Acquired software and technology	2,150	1,356	794
Trade names	633	458	175
Purchased software	1,397	441	956
Capitalized software and other intangibles	5,040	1,897	3,143
Total	<u>\$ 23,993</u>	<u>\$ 13,832</u>	<u>\$ 10,161</u>

Amortization expense associated with the above identifiable intangible assets was \$587 million and \$581 million for the three months ended June 30, 2026 and 2025, respectively, and \$1.2 billion and \$1.1 billion for the six months ended June 30, 2026 and 2025, respectively.

6. Investments in Unconsolidated Affiliates

The Company maintains investments in various affiliates that are accounted for as equity method investments, the most significant of which are related to the Company’s merchant alliances. The Company’s share of net income or loss from these investments is reported within income (loss) from investments in unconsolidated affiliates and the related tax expense or benefit is reported within the income tax provision in the consolidated statements of income. The Company reviews its equity method investments each reporting period for indications of an other-than-temporary decline in value, including any significant changes in business relationships with merchant alliances. A decline in value of an equity method investment determined to be other-than-temporary is recorded as a current-period impairment charge within income (loss) from investments in unconsolidated affiliates in the consolidated statements of income.

Merchant Alliances

The Company maintains ownership interests in certain merchant alliances, which combine the processing capabilities and management expertise of the Company with the visibility and distribution channel of a financial institution. A merchant alliance acquires credit and debit card transactions from merchants. The formation of these alliances generally involves the Company and the financial institution contributing contracts with merchants to the alliance and a cash payment from one owner of the alliance to the other to achieve the desired ownership percentage for each. The Company and the financial institution enter into

a long-term processing service agreement, which governs the Company's provision of transaction processing services to the alliance. Fees charged to merchant alliances, based on contractual pricing, are recognized in the Company's consolidated statements of income primarily as processing and services revenue, and totaled \$20 million and \$19 million for the three months ended June 30, 2026 and 2025, respectively, and \$38 million and \$51 million for the six months ended June 30, 2026 and 2025, respectively. The Company's investment in its merchant alliances was \$720 million and \$736 million at June 30, 2026 and December 31, 2025, respectively, and is reported within investments in unconsolidated affiliates in the consolidated balance sheets.

The Company maintained a 40% ownership interest in the Wells Fargo Merchant Services merchant alliance ("WFMS"), which was accounted for as an equity method investment. The Company acquired its ownership, at fair value, in WFMS through its 2019 acquisition of First Data Corporation. In 2024, Wells Fargo Bank, National Association provided the Company with a notice of non-renewal for WFMS and upon the expiration of the joint venture in April 2025, the Company received a cash payment of \$453 million.

Other Equity Method Investments

The Company maintains noncontrolling ownership interests in Sagent M&C, LLC and defi SOLUTIONS Group, LLC (collectively the "Lending Joint Ventures"), which are accounted for under the equity method. The Company's net investment in the Lending Joint Ventures was \$90 million and \$88 million at June 30, 2026 and December 31, 2025, respectively, and is reported within investments in unconsolidated affiliates in the consolidated balance sheets. The Company has guaranteed the debt of the Lending Joint Ventures and does not anticipate that the Lending Joint Ventures will fail to fulfill their debt obligations (see Note 8). In addition, the Company maintains other strategic investments accounted for under the equity method. The Company's aggregate investments in such entities was \$215 million and \$208 million at June 30, 2026 and December 31, 2025, respectively, and is reported within investments in unconsolidated affiliates in the consolidated balance sheets.

Other Equity Investments

The Company also maintains investments, over which it does not have significant influence, in various equity securities without a readily determinable fair value. Such investments totaled \$108 million and \$126 million at June 30, 2026 and December 31, 2025, respectively, and are primarily included within other long-term assets in the consolidated balance sheets. The Company reviews these investments each reporting period to determine whether an impairment or observable price change for the investment has occurred. To the extent such events or changes occur, the Company evaluates the fair value compared to its cost basis in the investment. Gains or losses from a sale of these investments or a change in fair value are included within other income (expense), net in the consolidated statements of income for the period. Adjustments made for observable price changes to the values recorded for certain equity securities and net gains or losses from sales of equity securities were not significant during each of the three and six months ended June 30, 2026 and 2025.

7. Derivatives and Hedging Instruments

In order to limit exposure to risk, the Company maintains derivative instruments with creditworthy institutions to hedge against changing interest rates and foreign currency rate fluctuations. The Company utilizes forward exchange contracts, fixed-to-fixed cross-currency rate swap contracts, fixed-to-floating interest rate swap contracts and other non-derivative hedging instruments to manage such risk. The Company has designated these instruments as cash flow hedges, net investment hedges, or fair value hedges, as further described below. Derivative instruments maintained by the Company are measured on a recurring basis and are recorded at fair value either as an asset or liability in the consolidated balance sheets (see Note 8).

Cash Flow Hedges

The Company maintains forward exchange contracts, designated as cash flow hedges, to hedge foreign currency exposure to the Indian Rupee. The notional amount of these derivatives was \$303 million and \$323 million at June 30, 2026 and December 31, 2025, respectively. Based on the amounts recorded in accumulated other comprehensive loss at June 30, 2026, the Company estimates that it will recognize losses of approximately \$13 million in cost of processing and services during the next 12 months as foreign exchange forward contracts settle.

The Company previously entered into treasury lock agreements ("Treasury Locks"), designated as cash flow hedges, to manage exposure to fluctuations in benchmark interest rates in anticipation of the issuance of fixed rate debt in connection with the acquisition and refinancing of certain indebtedness of First Data Corporation and its subsidiaries. In 2019, concurrent with the issuance of U.S. dollar-denominated senior notes, the Treasury Locks were settled resulting in a loss, net of income taxes, and recorded in accumulated other comprehensive loss that is being amortized to earnings over the terms of the originally forecast interest payments. In connection with the early debt extinguishment of a portion of the Company's 4.400% senior notes due in

July 2049 (see Note 10), \$22 million of unamortized losses associated with the Treasury Locks was recognized within net interest expense in the consolidated statements of income for the three and six months ended June 30, 2026. The remaining unamortized balance recorded in accumulated other comprehensive loss related to the Treasury Locks was \$59 million and \$88 million at June 30, 2026 and December 31, 2025, respectively. Based on the remaining amounts recorded in accumulated other comprehensive loss at June 30, 2026, the Company estimates that it will recognize approximately \$12 million in net interest expense during the next 12 months related to settled interest rate hedge contracts.

Net Investment Hedges

To reduce exposure to changes in the value of the Company's net investments in certain of its foreign currency-denominated subsidiaries due to changes in foreign currency exchange rates, the Company uses fixed-to-fixed cross-currency rate swap contracts and foreign currency-denominated debt as economic hedges of its net investments in such foreign currency-denominated subsidiaries.

The aggregate notional amount of the fixed-to-fixed cross-currency rate swap contracts were as follows:

(In millions)	June 30, 2026	December 31, 2025
Currency		
Euros	940	940
Singapore Dollars	828	828
Canadian Dollars	405	405

These fixed-to-fixed cross-currency rate swaps have been designated as net investment hedges to hedge a portion of the Company's net investment in certain subsidiaries whose functional currencies are the Euro, Singapore Dollar, and Canadian Dollar. The Company has also designated certain of its Euro- and British Pound-denominated senior notes and Euro commercial paper notes as net investment hedges to hedge a portion of its net investment in certain subsidiaries whose functional currencies are the Euro and the British Pound.

In connection with its June 2026 senior notes offering (see Note 10), the Company entered into foreign exchange forward contracts, designated as net investment hedges, to hedge foreign currency exposure between the offering date and the settlement date of the Euro-denominated senior notes. Upon settlement of the senior notes, the forward contracts were terminated, whereby the Company subsequently designated the Euro-denominated debt as a net investment hedge to hedge a portion of its net investment in certain subsidiaries whose functional currencies are the Euro.

Foreign currency transaction gains or losses on the qualifying net investment hedge instruments are recorded as foreign currency translation within other comprehensive income (loss) in the consolidated statements of comprehensive income and will remain in accumulated other comprehensive loss in the consolidated balance sheets until the sale or complete liquidation of the underlying foreign currency-denominated subsidiaries.

Foreign currency transaction gains (losses), net of income tax, related to net investment hedges that were recorded as foreign currency translation within other comprehensive income (loss) in the consolidated statements of comprehensive income were as follows:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Cross-currency rate swap contracts	\$ (2)	\$ (72)	\$ 13	\$ (93)
Foreign currency-denominated debt	22	(226)	85	(323)
Foreign exchange forward contracts	10	—	10	—

The Company recorded income tax impacts of \$(10) million and \$98 million during the three months ended June 30, 2026 and 2025, respectively, and \$(36) million and \$138 million during the six months ended June 30, 2026 and 2025, respectively, in other comprehensive income (loss) from the translation of foreign currency-denominated senior notes, Euro commercial paper notes, fixed-to-fixed cross-currency rate swap contracts and foreign exchange forward contracts.

Fair Value Hedges

The Company maintains fixed-to-floating interest rate swap contracts in the aggregate notional amount of \$1.5 billion, designated as fair value hedges, to economically change a portion of its fixed rate senior notes to variable rate debt. Net changes

in the fair value of the fixed-to-floating rate swaps (\$21 million loss and \$22 million loss for the three and six months ended June 30, 2026, respectively), along with the offsetting change in the fair value of the hedged senior notes, attributable to changes in the designated benchmark interest rate, were recognized in net interest expense within the consolidated statements of income.

The notional amounts of the hedged fixed rate senior notes were as follows:

(In millions)	June 30, 2026		December 31, 2025	
Hedged Notes				
5.350% senior notes due March 2031	\$	175	\$	—
5.625% senior notes due August 2033		300		—
5.150% senior notes due August 2034		500		—
5.250% senior notes due August 2035		525		—

The Company previously maintained a fixed-to-fixed cross-currency rate swap contract in the notional amount of 525 million British Pounds, designated as a fair value hedge, to mitigate the spot foreign exchange rate risk on the principal amount of its British Pound-denominated 2.250% senior notes, which matured in July 2025. Net changes in the fair value of the cross-currency rate swaps (\$41 million gain and \$60 million gain for the three and six months ended June 30, 2025, respectively), along with the offsetting change in the fair value of the hedged notes, attributable to fluctuations in the respective foreign currency spot rates were recognized in other income (expense), net within the consolidated statement of income.

8. Fair Value Measurements

The fair values of cash equivalents, trade accounts receivable, other current assets, settlement assets and obligations, accounts payable, and client deposits approximate their respective carrying values due to the short period of time to maturity. Derivative instruments maintained by the Company (see Note 7) are measured on a recurring basis based on benchmark interest rates, foreign currency spot rates and forwards quoted by banks and foreign currency dealers and are marked to market each period. Deferred consideration related to the sale of future credit card receivables originated under the Company's merchant cash advance programs (see Note 1) is estimated based on expected future cash collections of the sold receivables. Contingent consideration related to certain of the Company's acquisitions (see Note 4) is estimated using a probability-weighted assessment approach based on the likelihood of achieving the earn-out criteria. The fair value of the Company's contingent liability for current expected credit losses associated with its debt guarantees, as further described below, is estimated based on assumptions of future risk of default and the corresponding level of credit losses at the time of default.

Assets and liabilities measured at fair value on a recurring basis consisted of the following:

(In millions)	Classification	Fair Value Hierarchy	Fair Value		
			June 30, 2026	December 31, 2025	
Assets					
Cross-currency rate swap contracts designated as net investment hedges	Other long-term assets	Level 2	\$ 4	\$ —	
Deferred consideration on sale of merchant cash advances	Prepaid expenses and other current assets	Level 3	14	—	
Liabilities					
Cross-currency rate swap contracts designated as net investment hedges	Accounts payable and other current liabilities	Level 2	\$ 24	\$ 29	
Cross-currency rate swap contracts designated as net investment hedges	Other long-term liabilities	Level 2	72	81	
Forward exchange contracts designated as cash flow hedges	Accounts payable and other current liabilities	Level 2	13	10	
Forward exchange contracts designated as cash flow hedges	Other long-term liabilities	Level 2	2	1	
Fixed-to-floating interest rate swap contracts designated as fair value hedges	Other long-term liabilities	Level 2	22	—	
Contingent consideration	Accounts payable and other current liabilities	Level 3	13	6	
Contingent consideration	Other long-term liabilities	Level 3	22	29	
Contingent debt guarantee	Accounts payable and other current liabilities	Level 3	4	—	
Contingent debt guarantee	Other long-term liabilities	Level 3	—	6	

Debt

The Company's senior notes are recorded at amortized cost but measured at fair value for disclosure purposes. The estimated fair value of senior notes was based on matrix pricing which considers readily observable inputs of comparable securities (Level 2 of the fair value hierarchy). A portion of the Company's senior notes are designated under a fair value hedging relationship (see Note 7), and therefore changes in fair value attributable to changes in the designated benchmark interest rate are included in the carrying value of the hedged senior notes within the consolidated balance sheet. The carrying value of the Company's foreign lines of credit, commercial paper notes and revolving credit facility borrowings approximates fair value as these instruments have variable interest rates and the Company has not experienced any change to its credit ratings (Level 2 of the fair value hierarchy). The estimated fair value of total debt, excluding finance leases and other financing obligations, was \$25.0 billion and \$26.4 billion at June 30, 2026 and December 31, 2025, respectively, and the carrying value was \$25.5 billion and \$26.9 billion at June 30, 2026 and December 31, 2025, respectively.

Debt Guarantee Arrangements

The Lending Joint Ventures (see Note 6) maintain variable-rate term loan facilities with aggregate outstanding borrowings of \$388 million in senior unsecured debt at June 30, 2026 and variable-rate revolving credit facilities with an aggregate borrowing capacity of \$83 million with a syndicate of banks, which mature in April 2027. There were \$36 million of aggregate outstanding borrowings on the revolving credit facilities at June 30, 2026. The Company has guaranteed the debt of the Lending Joint Ventures.

The Company maintains liabilities for its obligations to perform over the term of its debt guarantee arrangements with the Lending Joint Ventures, which are reported within accounts payable and other current liabilities in the consolidated balance sheets. The Company has provided aggregate guarantees of \$471 million associated with the debt of the Lending Joint Ventures and is entitled to receive a defined fee in exchange for its guarantee of this indebtedness. The Company has not made any payments under the guarantees, nor has it been called upon to do so, and does not anticipate that the Lending Joint Ventures will fail to fulfill their debt obligations.

The non-contingent component of the Company's debt guarantee arrangements is recorded at amortized cost, but measured at fair value for disclosure purposes. The carrying value of the Company's non-contingent liability of \$7 million and \$12 million approximates the fair value at June 30, 2026 and December 31, 2025, respectively (Level 3 of the fair value hierarchy). Such guarantees will be amortized in future periods over the contractual term of the debt. The contingent component of the Company's debt guarantee arrangements represents the current expected credit losses to which the Company is exposed. The amount of the liability, as reflected within the table above, is estimated based on certain financial metrics of the Lending Joint Ventures and historical industry data, which is used to develop assumptions of the likelihood the guaranteed parties will default and the level of credit losses in the event a default occurs. The Company recognized \$3 million and \$4 million during the three months ended June 30, 2026 and 2025, respectively, and \$7 million and \$9 million during the six months ended June 30, 2026 and 2025, respectively, within other income (expense), net in its consolidated statements of income related to its release from risk under the non-contingent guarantees as well as a change in the provision of estimated credit losses associated with the indebtedness of the Lending Joint Ventures.

Other Non-Financial Assets

Certain of the Company's non-financial assets are measured at fair value on a non-recurring basis, including property and equipment, lease right-of-use assets, equity securities without a readily determinable fair value, goodwill and other intangible assets, and are subject to fair value adjustment in certain circumstances.

9. Accounts Payable and Other Current Liabilities

Accounts payable and other current liabilities consisted of the following:

(In millions)	June 30, 2026	December 31, 2025
Trade accounts payable	\$ 907	\$ 797
Client deposits	1,018	988
Transferable federal tax credits (see Note 14)	52	801
Accrued compensation and benefits	272	299
Accrued taxes	290	368
Accrued interest	341	417
Accrued payment network fees	327	297
Operating lease liabilities	126	126
Accrued professional fees	145	161
Other accrued expenses	1,229	1,053
Total	\$ 4,707	\$ 5,307

10. Debt

The Company's debt consisted of the following at:

(In millions)	June 30, 2026	December 31, 2025
Short-term and current maturities of long-term debt:		
Foreign lines of credit	\$ 618	\$ 762
Finance lease and other financing obligations	589	477
Total short-term and current maturities of long-term debt	<u>\$ 1,207</u>	<u>\$ 1,239</u>
Long-term debt:		
3.200% senior notes due July 2026	\$ 2,000	\$ 2,000
5.150% senior notes due March 2027	234	750
2.250% senior notes due June 2027	1,000	1,000
1.125% senior notes due July 2027 (Euro-denominated)	569	589
5.450% senior notes due March 2028	900	900
2.875% senior notes due June 2028 (Euro-denominated)	854	883
5.375% senior notes due August 2028	700	700
4.200% senior notes due October 2028	1,000	1,000
3.500% senior notes due July 2029	3,000	3,000
4.750% senior notes due March 2030	850	850
2.650% senior notes due June 2030	1,000	1,000
1.625% senior notes due July 2030 (Euro-denominated)	569	589
3.750% senior notes due October 2030 (Euro-denominated)	569	—
4.550% senior notes due February 2031	1,000	1,000
5.350% senior notes due March 2031	500	500
4.500% senior notes due May 2031 (Euro-denominated)	911	942
3.000% senior notes due July 2031 (British Pound-denominated)	693	709
3.500% senior notes due June 2032 (Euro-denominated)	882	912
5.600% senior notes due March 2033	900	900
5.625% senior notes due August 2033	1,300	1,300
5.450% senior notes due March 2034	750	750
4.250% senior notes due June 2034 (Euro-denominated)	569	—
5.150% senior notes due August 2034	900	900
5.250% senior notes due August 2035	1,000	1,000
4.000% senior notes due June 2036 (Euro-denominated)	740	765
4.400% senior notes due July 2049	1,156	2,000
U.S. dollar commercial paper notes	—	326
Euro commercial paper notes	548	839
Revolving credit facility	—	188
Unamortized discount and deferred financing costs	(150)	(169)
Fair value hedge accounting adjustments (see Note 8)	(22)	—
Finance lease and other financing obligations	1,757	1,635
Total long-term debt	<u>\$ 26,679</u>	<u>\$ 27,758</u>

The Company was in compliance with all financial debt covenants during the six months ended June 30, 2026.

Senior Notes

On June 23, 2026, the Company completed the public offering and issuance of €1.0 billion of senior notes, comprised of €500 million aggregate principal amount of 3.750% senior notes due in October 2030 and €500 million aggregate principal amount of 4.250% senior notes due in June 2034. Interest on these senior notes is paid annually. The Company used the net

proceeds from this senior notes offering, together with proceeds from the sale of U.S. dollar commercial paper and cash from operations, to purchase through a cash tender offer and open market repurchase a portion of its outstanding 5.150% senior notes due in March 2027 (the “2027 notes”) and 4.400% senior notes due in July 2049 (the “2049 notes”). Upon expiration of the cash tender offer on June 23, 2026, \$1.3 billion aggregate principal amount of the 2027 and 2049 notes was tendered and accepted for purchase for total consideration of \$1.2 billion paid to holders. Additionally, on June 30, 2026, \$28 million aggregate principal amount of the 2049 notes was retired through an open market repurchase for total consideration of \$23 million paid to holders. The Company recorded a pre-tax gain on early debt extinguishment of \$154 million in the second quarter of 2026 related to the cash tender offer and open market repurchase.

On July 1, 2026, an additional \$47 million aggregate principal amount of the 2049 notes was retired through an open market repurchase for total consideration of \$38 million. The Company expects to recognize a pre-tax gain in the third quarter of 2026 related to this open market repurchase.

On August 11, 2025, the Company completed the public offering and issuance of \$2.0 billion of senior notes, comprised of \$1.0 billion aggregate principal amount of 4.550% senior notes due in February 2031 and \$1.0 billion aggregate principal amount of 5.250% senior notes due in August 2035. Interest on these senior notes is paid semi-annually. The Company used the net proceeds from this senior notes offering for general corporate purposes, including the repayment of a portion of the Company’s commercial paper notes and for share repurchases.

On May 7, 2025, Fiserv Funding Unlimited Company, an indirect wholly owned subsidiary of the Company, completed the public offering and issuance of €2.175 billion of senior notes, comprised of €750 million aggregate principal amount of 2.875% senior notes due in June 2028, €775 million aggregate principal amount of 3.500% senior notes due in June 2032 and €650 million aggregate principal amount of 4.000% senior notes due in June 2036. These notes are fully and unconditionally guaranteed on a senior unsecured basis by the Company. Interest on these senior notes is paid annually. The Company used the net proceeds from this senior notes offering for general corporate purposes, including the repayment of a portion of the Company’s commercial paper notes, 3.850% senior notes due in June 2025 and 2.250% senior notes due in July 2025.

At June 30, 2026, the 3.200% senior notes due in July 2026, 5.150% senior notes due in March 2027, and 2.250% senior notes due in June 2027 were classified in the consolidated balance sheet as long-term, as the Company has the intent to refinance this debt on a long-term basis, and the ability to do so under its commercial paper program and revolving credit facility.

The indentures governing the Company’s senior notes contain covenants that, among other matters, limit (i) the Company’s ability to consolidate or merge with or into, or convey, transfer or lease all or substantially all of its properties and assets to, another person, (ii) the Company’s and certain of its subsidiaries’ ability to create or assume liens, and (iii) the Company’s and certain of its subsidiaries’ ability to engage in sale and leaseback transactions. The Company may, at its option, redeem the senior notes, in whole or in part, at any time and from time to time at the applicable redemption price. Interest on the Company’s U.S. dollar-denominated senior notes is paid semi-annually, while interest on its Euro- and British Pound- denominated senior notes is paid annually. The interest rate applicable to certain of the senior notes is subject to an increase of up to two percent in the event that the credit rating assigned to such notes is downgraded below investment grade.

Commercial Paper

The Company maintains unsecured U.S. dollar and Euro commercial paper programs. From time to time, the Company may issue under these programs U.S. dollar commercial paper with maturities of up to 397 days from the date of issuance and Euro commercial paper with maturities of up to 183 days from the date of issuance. There were no outstanding borrowings under the U.S. dollar program at June 30, 2026. Outstanding borrowings under the U.S. dollar program were \$326 million at December 31, 2025, with a weighted average interest rate of 3.851%. Outstanding borrowings under the Euro program were \$548 million and \$839 million at June 30, 2026 and December 31, 2025, with weighted average interest rates of 2.493% and 2.210%, respectively. The Company intends to maintain available capacity under its revolving credit facility, as described below, in an amount at least equal to the aggregate outstanding borrowings under its commercial paper programs. Outstanding borrowings under the commercial paper programs are classified in the consolidated balance sheets as long-term as the Company has the intent to refinance this commercial paper on a long-term basis through the continued issuance of new commercial paper upon maturity, and the Company also has the ability to refinance such commercial paper under its revolving credit facility.

Revolving Credit Facility

The Company maintains a senior unsecured multicurrency revolving credit facility, which matures in August 2030 and provides for a maximum aggregate principal amount of availability of \$8.0 billion. Borrowings under the credit facility bear interest at a variable base rate, determined by the term and currency of the borrowing, plus a specified margin based on the Company’s long-term debt rating. There were no outstanding borrowings under the revolving credit facility at June 30, 2026. Outstanding borrowings under the revolving credit facility were \$188 million at December 31, 2025, with a corresponding interest rate of

4.685%. The credit facility also requires the Company to pay a facility fee based on the aggregate commitments in effect under the agreement from time to time. The credit facility contains various restrictions and covenants that require the Company to, among other things, limit its consolidated indebtedness as of the end of each fiscal quarter to no more than 3.75 times the Company's consolidated net income before interest, taxes, depreciation, amortization, non-cash charges and expenses and certain other adjustments during the period of four fiscal quarters then ended, subject to certain exceptions.

Foreign Lines of Credit

The Company maintains various short-term lines of credit and other borrowing arrangements with foreign banks and alliance partners primarily to fund merchant settlement advances associated with operations in Latin America through the Company's settlement anticipation program (see Note 1). The following table provides a summary of the outstanding borrowings and weighted average interest rates of the Company's foreign lines of credit and other borrowing arrangements by country:

	Outstanding Borrowings (In millions)		Weighted-Average Interest Rate	
	June 30, 2026	December 31, 2025	June 30, 2026	December 31, 2025
Argentina	\$ 236	\$ 282	25.848 %	51.559 %
Brazil	259	365	14.700 %	15.482 %
Uruguay and Other	123	115	6.962 %	7.964 %
Total	<u>\$ 618</u>	<u>\$ 762</u>	17.401 %	27.727 %

11. Equity

The following tables provide changes in equity during the three and six months ended June 30, 2026 and 2025:

Fiserv, Inc. Shareholders' Equity									
Three Months Ended June 30, 2026 (In millions)	Number of Shares		Amount

Amounts reclassified from accumulated other comprehensive loss	7	—	—	7
Net current-period other comprehensive income	10	502	—	512
Balance at June 30, 2025	<u>\$ (69)</u>	<u>\$ (825)</u>	<u>\$ (7)</u>	<u>\$ (901)</u>

13. Share-Based Compensation

The Company recognized \$117 million and \$91 million of share-based compensation expense during the three months ended June 30, 2026 and 2025, respectively, and \$235 million and \$215 million of share-based compensation expense during the six months ended June 30, 2026 and 2025, respectively. The Company's share-based compensation awards are typically granted in the first quarter of the year; however, grants may also occur throughout the year. Time-based restricted stock units generally vest over a three-year period. In December 2025, the Company granted retention restricted stock units to certain employees, which fully vest after an 18-month period. At June 30, 2026, the total remaining unrecognized compensation cost for restricted stock units and performance share units, net of estimated forfeitures, of \$515 million is expected to be recognized over a weighted-average period of 1.9 years.

A summary of restricted stock unit and performance share unit activity during the six months ended June 30, 2026 is as follows:

	Restricted Stock Units		Performance Share Units	
	Shares (In thousands)	Weighted-Average Grant Date Fair Value	Shares (In thousands)	Weighted-Average Grant Date Fair Value
Units - December 31, 2025	3,890	\$ 156.58	2,251	\$ 138.57
Granted	7,922	63.97	1,177	66.68
Forfeited	(628)	91.11	(815)	130.16
Vested	(1,866)	146.93	(158)	161.01
Units - June 30, 2026	<u>9,318</u>	<u>\$ 83.98</u>	<u>2,455</u>	<u>\$ 105.03</u>

A summary of stock option activity during the six months ended June 30, 2026 is as follows:

	Shares (In thousands)	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (In millions)
Stock options outstanding - December 31, 2025	759	\$ 90.84		
Forfeited	(8)	88.13		
Exercised	(79)	46.29		
Stock options outstanding - June 30, 2026	<u>672</u>	<u>\$ 96.11</u>	<u>3.11</u>	<u>\$ —</u>
Stock options exercisable - June 30, 2026	<u>672</u>	<u>\$ 96.11</u>	<u>3.11</u>	<u>\$ —</u>

14. Income Taxes

The Company's income tax provision and effective income tax rate were as follows:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Components of income tax provision (benefit):				
Current:				
Federal	\$ 160	\$ 279	\$ 159	\$ 405
State	33	70	76	106
Foreign	75	75	115	140
	268	424	350	651
Deferred:				
Federal	(89)	(126)	82	(140)
State	(11)	(17)	(2)	(21)
Foreign	(12)	(35)	(250)	(54)
	(112)	(178)	(170)	(215)
Income tax provision	\$ 156	\$ 246	\$ 180	\$ 436
Effective income tax rate	20.2 %	19.0 %	13.2 %	18.6 %

The income tax provision as a percentage of income before income taxes and income (loss) from investments in unconsolidated affiliates was 20.2% and 19.0% for the three months ended June 30, 2026 and 2025, respectively, and 13.2% and 18.6% for the six months ended June 30, 2026 and 2025, respectively. The effective income tax rate for the six months ended June 30, 2026 included the impact of a \$293 million benefit related to the release of a valuation allowance against certain foreign net operating loss carryforwards that were determined to be realizable during the first quarter of 2026. The Company monitors the realizability of deferred tax assets, taking into account all relevant factors, at each reporting period. This release was driven by a reevaluation of cumulative and future projected taxable income as a result of cross-border funding activities. This benefit was partially offset by a \$39 million increase in U.S. federal unrecognized tax benefits for tax positions taken in prior years, \$35 million in discrete tax expense from share-based awards and a \$39 million increase in various other foreign valuation allowances during the first quarter of 2026. The net impact of these items resulted in a lower effective income tax rate compared to the statutory income tax rate. The effective income tax rate for the first six months ended June 30, 2025 included discrete tax benefits from share-based awards, resulting in a lower effective income tax rate compared to the statutory income tax rate.

Pursuant to provisions under the Inflation Reduction Act, the Company has purchased transferable federal tax credits from various counterparties. Such federal tax credits were purchased at negotiated discounts, resulting in an income tax benefit recorded for each of the six months ended June 30, 2026 and 2025. Receivables associated with transferable federal tax credits are recorded within prepaid expenses and other current assets, and amounts owed to counterparties for the purchased credits are recorded within accounts payable and other current liabilities within the consolidated balance sheets.

The Company's potential liability for unrecognized tax benefits before interest and penalties was approximately \$137 million and \$97 million at June 30, 2026 and December 31, 2025, respectively. The Company believes it is reasonably possible that the liability for unrecognized tax benefits may decrease by up to \$3 million over the next 12 months as a result of possible closure of tax audits, audit settlements, and the lapse of the statutes of limitations in various jurisdictions.

As of June 30, 2026, the Company's U.S. federal income tax returns for 2019 and 2025, and tax returns in certain states and foreign jurisdictions for 2017 through 2025, remain subject to examination by taxing authorities.

15. Shares Used in Computing Net Income Per Share Attributable to Fiserv, Inc.

The computation of shares used in calculating basic and diluted net income per share is as follows:

(In millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
Weighted-average common shares outstanding used for the calculation of net income attributable to Fiserv, Inc. per share - basic	532.6	550.8	533.4	556.1
Common stock equivalents	1.1	1.9	1.1	2.6
Weighted-average common shares outstanding used for the calculation of net income attributable to Fiserv, Inc. per share - diluted	533.7	552.7	534.5	558.7

For the three months ended June 30, 2026 and 2025, restricted stock units for 5.7 million and 1.2 million shares, respectively, were excluded from the calculation of weighted-average outstanding shares - diluted because their impact was anti-dilutive. For the six months ended June 30, 2026 and 2025, restricted stock units for 4.5 million and 913 thousand shares, respectively, were excluded from the calculation of weighted-average outstanding shares - diluted because their impact was anti-dilutive.

16. Cash Flow Information

Supplemental cash flow information consisted of the following:

(In millions)	Six Months Ended June 30,	
	2026	2025
Interest paid	\$ 769	\$ 709
Net income taxes paid, including transferable federal tax credits	1,063	1,245
Treasury stock purchases settled after the balance sheet date	—	18
Software and other intangible assets obtained under financing arrangements	126	554
Hardware obtained under financing arrangements	19	193
Right-of-use assets obtained in exchange for lease liabilities - operating leases	223	28
Right-of-use assets obtained in exchange for lease liabilities - finance leases	450	259

17. Commitments and Contingencies

Litigation and Investigation Matters

In the normal course of business, the Company or its subsidiaries are named as defendants in lawsuits in which claims are asserted against the Company. The Company maintained an accrual of \$18 million and \$25 million at June 30, 2026 and December 31, 2025, respectively, related to its various legal proceedings. In the opinion of management, the liabilities, if any, which may ultimately result from such legal proceedings are not expected to have a material adverse effect on the Company's consolidated financial statements.

On June 12, 2026, an amended federal securities law complaint was filed against the Company and four former senior executives (Frank J. Bisignano, Michael P. Lyons, Robert W. Hau, and John Gibbons) in the United States District Court for the Southern District of New York. The amended complaint is brought on behalf of a putative class of purchasers of Company securities from February 6, 2024 to October 28, 2025 and alleges violations of Section 10(b) of the Securities Exchange Act of 1934 (the "Exchange Act"), and Rule 10b-5 thereunder, and Section 20(a) of the Exchange Act. The amended complaint alleges, among other things, that certain statements made by the Company about the growth of its Clover business management platform and the impact of the Company's Argentina business on its organic growth were false and/or misleading and led to a decline in the Company's stock price over the purported class period. The action is captioned *In re Fiserv, Inc. Securities Litigation*, No. 1:25-cv-06094.

Between December 10, 2025 and February 3, 2026, derivative complaints were filed by purported Company shareholders Richard Martin, Nathan Silva, and Gary Peterson in the United States District Court for the Eastern District of Wisconsin. On May 18, 2026 and June 3, 2026, respectively, these actions were consolidated and lead counsel was appointed. On February 27, 2026 and April 14, 2026, derivative complaints were filed by purported Company shareholders Scott Kracht, Karen Artman, and Jenny Zhang in the Wisconsin Circuit Court for Milwaukee County. On June 12, 2026, these actions were consolidated and lead counsel was appointed. The actions name Messrs. Bisignano and Lyons, and certain other current and former officers and

directors of the Company as individual defendants, and the Company as the nominal defendant, and generally allege that certain individual defendants breached their fiduciary duties and violated the Exchange Act in connection with, among other things, factual allegations made in the *In re Fiserv, Inc. Securities Litigation* action. The actions also allege that certain individual defendants are liable for trading in Company stock at artificially inflated prices. The actions are stayed pending a decision on a forthcoming motion to dismiss in the *In re Fiserv, Inc. Securities Litigation* action.

The Company has also received demands on the board of directors from purported Company shareholders that the Company pursue certain litigation against certain of its current and former directors and officers alleging, among other things, supposed breaches of duty based on factual allegations made in the *In re Fiserv, Inc. Securities Litigation* action. The Company may receive additional demands and these demands may precede derivative actions which name the Company as a nominal defendant.

The defendants have not yet answered or otherwise responded to any of the complaints in these actions. The Company intends to vigorously defend these cases but cannot predict with any degree of certainty the outcome of the suits or determine the extent of any potential liability or damages.

In November 2025, the Company began responding to requests for information from the Enforcement Division of the U.S. Securities and Exchange Commission and the U.S. Attorney's Office for the Southern District of New York in connection with investigations related to the Company's 2025 earnings guidance. The Company is cooperating with these investigations.

Electronic Payments Transactions

In connection with the Company's processing of electronic payments transactions, which are separate and distinct from the settlement payment transactions described in Note 1, funds received from subscribers are invested from the time the Company collects the funds until payments are made to the applicable recipients. These subscriber funds are invested in short-term, highly liquid investments. Subscriber funds, which are not included in the Company's consolidated balance sheets, can fluctuate significantly based on consumer bill payment and debit card activity and totaled \$1.3 billion and \$1.7 billion at June 30, 2026 and December 31, 2025, respectively.

Indemnifications and Warranties

The Company may indemnify its clients from certain costs resulting from claims of patent, copyright or trademark infringement associated with its clients' use of the Company's products or services. The Company may also warrant to clients that its products and services will operate in accordance with identified specifications. From time to time, in connection with sales of businesses, the Company agrees to indemnify the buyers of such businesses for liabilities associated with the businesses that are sold. Payments, net of recoveries, under such indemnification or warranty provisions were not material to the Company's consolidated financial statements.

18. Business Segment Information

The Company's operations are comprised of two reportable segments, the Merchant segment and the Financial segment. The businesses in the Merchant segment provide commerce-enabling products and services to companies of all sizes around the world. These products and services include merchant acquiring and digital commerce services; mobile payment services; security and fraud protection solutions; stored-value solutions; and pay-by-bank solutions. The business lines (operating segments) aggregated within the Merchant segment consist of the following:

- *Small Business* – provides products and services to small businesses and independent software vendors, including Clover®, the Company's POS and business management platform for small business clients
- *Enterprise* – provides products and services to large businesses, including the Company's integrated omnichannel operating system for enterprise clients
- *Processing* – provides products and services to financial institutions, joint ventures, and other third party resellers which have direct relationships with merchants

The Company distributes the products and services in the Merchant segment businesses through a variety of channels, including direct sales teams, strategic partnerships with agent sales forces, independent software vendors, financial institutions and other strategic partners in the form of joint venture alliances, revenue sharing alliances and referral agreements.

The businesses in the Financial segment provide products and services to financial institution, corporate and public sector clients across the world, enabling the processing of customer loan and deposit accounts, digital payments and card transactions. The business lines (operating segments) aggregated within the Financial segment consist of the following:

- *Digital Payments* – provides debit card processing services; debit network services; security and fraud protection products; bill payment; person-to-person payments; and account-to-account transfers
- *Issuing* – provides credit card processing services; prepaid card processing services; card production services; print services; government payment processing; and student loan servicing
- *Banking* – provides customer loan and deposit account processing; digital banking; financial and risk management; professional services and consulting; and check processing

Corporate and Other supports the reportable segments described above, and consists of amortization of acquisition-related intangible assets, unallocated corporate expenses and other activities that are not considered when management evaluates segment performance, such as gains or losses on sales of businesses, certain assets or investments; costs associated with acquisition and divestiture activity; expenses associated with the Company's One Fiserv transformation initiative; postage reimbursements; and gains on early debt extinguishment associated with refinancing activities. The Company's One Fiserv action plan is a comprehensive, strategic initiative aimed to enhance client service, accelerate product development, address operational inefficiencies, and optimize capital management.

The Company's Chief Executive Officer, who is also the Company's chief operating decision maker ("CODM"), assesses segment performance and makes strategic decisions on the allocation of resources. Additionally, the Company's Chief Executive Officer provides oversight on business leadership and corporate strategy to the executive leadership team, who manages the day to day operations of the various business lines.

The CODM uses reportable segment operating income to evaluate segment performance and allocate resources, primarily during the annual budget and forecasting processes. The CODM regularly reviews variances between forecasted and actual results in assessing earnings, operational efficiency and growth performance, and allocating resources including personnel and capital allocations, to each reportable segment. There are no intersegment revenues contained within the respective reportable segment revenues.

Operating results for each reportable segment were as follows:

(In millions)	Reportable Segments			Total
	Merchant	Financial		
Three Months Ended June 30, 2026

⁽²⁾ Primarily includes amortization of acquisition-related intangible assets, such as customer relationships, software/technology and trade names.

The Company does not evaluate the performance of or allocate resources to its reportable segments using asset data.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This quarterly report contains "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. Forward-looking statements include those that express a plan, belief, expectation, estimation, anticipation, intent, contingency, future development, outlook, or similar expression, and can generally be identified as forward-looking because they include words such as "believes," "anticipates," "expects," "could," "should," "confident," "likely," "plan," or words of similar meaning. Statements that describe our future plans, objectives or goals are also forward-looking statements.

The forward-looking statements in this report involve significant risks and uncertainties, and a number of factors, both foreseen and unforeseen, could cause actual results to differ materially from our current expectations. The factors that may affect our results include, among others, the following: our ability to compete effectively against new and existing competitors and to continue to introduce competitive new products and services on a timely, cost-effective basis; changes in customer demand for our products and services; the ability of our technology to keep pace with a rapidly evolving marketplace; our ability to successfully implement and achieve the expected benefits associated with our One Fiserv action plan; the success of our merchant alliances, some of which we do not control; the impact of a security breach or operational failure on our business, including disruptions caused by other participants in the global financial system; losses due to chargebacks, refunds or returns as a result of fraud or the failure of our vendors and merchants to satisfy their obligations; changes in local, regional, national and international economic or political conditions, including those resulting from heightened inflation, rising interest rates, taxes, trade policies and tariffs, a recession, bank failures, or international hostilities, and the impact they may have on us and our employees, clients, vendors, supply chain, operations and sales; our ability to use artificial intelligence to improve our products and services and enhance our operations; the effect of proposed and enacted legislative and regulatory actions affecting us or the financial services industry as a whole; our ability to comply with government regulations and applicable card association and network rules; the protection and validity of intellectual property rights; the outcome of pending and future litigation and governmental proceedings; our ability to successfully identify, complete and integrate acquisitions, and to realize the anticipated benefits associated with the same; the impact of our growth strategies; our ability to attract and retain key personnel; adverse impacts from currency exchange rates or currency controls; changes in corporate tax and interest rates; and other factors included in "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2025, and in other documents that we file with the Securities and Exchange Commission, which are available at <http://www.sec.gov>. You should consider these factors carefully in evaluating forward-looking statements and are cautioned not to place undue reliance on such statements, which speak only as of the date of this report. We undertake no obligation to update forward-looking statements to reflect events or circumstances occurring after the date of this report.

Management's discussion and analysis of financial condition and results of operations is provided as a supplement to our unaudited consolidated financial statements and accompanying notes to help provide an understanding of our financial condition, the changes in our financial condition and our results of operations. Our discussion is organized as follows:

- *Overview.* This section contains background information on: our company and the products and services that we provide, acquisitions, dispositions, other transactions and the trends affecting our industry in order to provide context for management's discussion and analysis of our financial condition and results of operations.
- *Changes in critical accounting policies and estimates.* This section contains a discussion of changes since our Annual Report on Form 10-K for the year ended December 31, 2025 in the accounting policies that we believe are important to our financial condition and results of operations and that require judgment and estimates on the part of management in their application.
- *Results of operations.* This section contains an analysis of our results of operations presented in the accompanying unaudited consolidated statements of income by comparing the results for the three and six months ended June 30, 2026 to the comparable period in 2025.
- *Liquidity and capital resources.* This section provides an analysis of our cash flows and a discussion of our outstanding debt at June 30, 2026.

Overview

Company Background

We are a global leader uniting commerce and finance. At the intersection of banking and commerce, we power sustained growth and innovation at scale for financial institutions and businesses worldwide across payments, account processing, digital

banking, merchant acquiring, network services, e-commerce, and Clover®, the all-in-one business management platform. Most of the products and services we provide are necessary for our clients to operate their businesses and are therefore non-discretionary in nature. We serve our global client base by working among our geographic teams across various regions, including the United States of America (“U.S.”) and Canada; Europe, Middle East and Africa; Latin America; and Asia Pacific. Our operations are comprised of the Merchant Solutions (“Merchant”) segment and Financial Solutions (“Financial”) segment.

We are focused on providing exceptional client service, world-class execution, value-added technology solutions, and cutting-edge innovation. Our long-term focus is to meet our financial commitments, deliver compelling, innovative solutions that address our clients’ most critical needs, and realize productivity and efficiency gains by embedding artificial intelligence (“AI”) in our products, services and business operations.

The businesses in our Merchant segment provide commerce-enabling products and services to companies of all sizes around the world. These products and services include merchant acquiring and digital commerce services; mobile payment services; security and fraud protection solutions; stored-value solutions; software-as-a-service; point-of-sale (“POS”) devices; and pay-by-bank solutions. The business lines aggregated within the Merchant segment consist of the following:

- *Small Business* – provides products and services to small businesses and independent software vendors (“ISVs”), including Clover, our POS and business management platform for small business clients
- *Enterprise* – provides products and services to large businesses, including our integrated omnichannel operating system for enterprise clients
- *Processing* – provides products and services to financial institutions, joint ventures, and other third party resellers which have direct relationships with merchants

We distribute the products and services in the Merchant segment businesses through a variety of channels, including direct sales teams, strategic partnerships with agent sales forces, ISVs, independent sales organizations, financial institutions and other strategic partners in the form of joint venture alliances, revenue sharing alliances and referral agreements.

The businesses in our Financial segment provide products and services to financial institution, corporate and public sector clients across the world, enabling the processing of customer loan and deposit accounts, digital payments and card transactions. The business lines aggregated within the Financial segment consist of the following:

- *Digital Payments* – provides debit card processing services; debit network services; security and fraud protection products; bill payment; person-to-person payments; and account-to-account transfers
- *Issuing* – provides credit card processing services; prepaid card processing services; card production services; print services; government payment processing; and student loan servicing
- *Banking* – provides customer loan and deposit account processing; digital banking; financial and risk management; professional services and consulting; and check processing

Corporate and Other supports the reportable segments described above, and consists of amortization of acquisition-related intangible assets, unallocated corporate expenses and other activities that are not considered when we evaluate segment performance, such as gains or losses on sales of businesses, certain assets or investments; costs associated with acquisition and divestiture activity; expenses associated with our One Fiserv transformation initiative; postage reimbursements; and gains on early debt extinguishment associated with refinancing activities.

One Fiserv Action Plan

In the third quarter of 2025, we launched the One Fiserv action plan designed to prioritize and enhance client focus across five strategic pillars. The One Fiserv action plan centers our investments in areas that build on Fiserv’s strengths, including: operating with a client-first mindset to grow our client base and average revenue per client; building the leading small business operating platform with Clover®; creating innovative platforms in finance and commerce to drive value for our clients, including embedded finance and stablecoin; delivering AI-enabled operational excellence and efficiency; and employing disciplined long-term capital allocation.

To advance this transformation, we are simplifying and standardizing processes, adopting new ways of working, and embedding AI to create a higher-quality, more productive business. This approach rethinks how business functions operate and aligns our product portfolio for the future. We are modernizing our technology infrastructure, enhancing resiliency, and reengineering our operating model through AI and advanced automation. We expect these efforts to strengthen efficiency, scalability, and innovation to deliver differentiated value and an exceptional experience for our clients.

Acquisitions, Dispositions and Other Transactions

We frequently review our businesses to ensure we have the necessary assets to execute our strategy. We expect to acquire businesses when we identify: a compelling strategic need, such as a product, service or technology that helps meet client demand; a way to achieve business scale that enables competition and operational efficiency; or similar considerations. We expect to divest businesses that are not in line with our market, product or financial strategies. The results of operations for the following acquired businesses are included in our consolidated results from the respective dates of acquisition.

Acquisitions of Businesses

On December 17, 2025, we acquired StoneCastle Cash Management, LLC, INDX Processing, LLC and StoneCastle Trust Co. (collectively, “StoneCastle”), a provider of deposit funding solutions. StoneCastle is included within the Financial segment and provides its network of depository institutions easy access to stable, cost efficient deposit funding. On October 1, 2025, we acquired a portion of The Toronto-Dominion Bank’s merchant processing business in Canada (“TD Merchant Canada”). This business is included within the Merchant segment and expands the footprint of our Clover® platform. In connection with this transaction, we signed a multi-year strategic managed services program agreement with The Toronto-Dominion Bank to utilize our technology, including Clover, within its Merchant Solutions business.

On September 25, 2025, we acquired the Smith Consulting Group, LLC business (“SCG”), an operational consulting service utilized by community banks and credit unions across the U.S. SCG is included within the Financial segment and supports our ability to provide consultative engagement to enhance community banks’ and credit unions’ strategic investments. On September 4, 2025, we acquired CardFree Inc. (“CardFree”), an all-in-one platform delivering integrated order, payment and loyalty solutions for merchants. CardFree is included within the Merchant segment and further expands the capabilities of our Clover platform across the hospitality, restaurant and lodging industries.

On June 4, 2025, we acquired Money Money Serviços Financeiros S.A. (“Money Money”), a provider of risk analysis and credit decisioning solutions. Money Money is included within the Merchant segment and expands our payment and financial service capabilities, enabling access to working capital and other payment solutions for small and medium-sized businesses. On April 4, 2025, we acquired Pinch Payments NZ Limited (together with Zootive Pty Ltd, “Pinch Payments”), a payment facilitator. Pinch Payments is included within the Merchant segment and expands our flexible payment services for our partners and clients and our presence within the Asia-Pacific region.

On March 18, 2025, we acquired CCV Group B.V. (“CCV”), a supplier of POS payment solutions. CCV is included within the Merchant segment and expands our network of payment solutions, enabling our ability to accelerate the deployment of our Clover POS and business management platform across Europe. On March 2, 2025, we acquired Payfare, Inc. (“Payfare”), a provider of program management solutions powering instant access to earnings and banking solutions for workforces. Payfare is included within the Financial segment and expands our embedded finance capabilities for large enterprises and financial institutions.

We acquired these businesses for an aggregate purchase price, including deferred payments, of \$857 million, net of \$84 million of acquired cash and including earn-out provisions estimated at a fair value of \$35 million.

Disposition of Business and Other Transactions

In May 2026, we entered into a definitive agreement to sell our student loan servicing business, which is reported within the Financial segment. The transaction is expected to close in the third quarter of 2026, subject to customary closing conditions.

In August 2026, we formed a joint venture, MoneyPass Group, of which we will maintain a 49% ownership interest, encompassing our MoneyPass Network, ATM Managed Services and Cash Intelligence businesses, which are reported within the Financial segment.

On September 5, 2025, we acquired the remaining 49.9% ownership interest, including cash held of \$195 million, in AIB Merchant Services (“AIBMS”), a payments solution provider, for \$420 million. On April 17, 2025, we acquired the remaining 19% ownership interest in ICICI Merchant Services Private Limited, a merchant acceptance business, for \$22 million. We previously held a majority controlling financial interest in each of these subsidiaries, which continue to be consolidated and reported within the Merchant segment.

In the third quarter of 2024, Wells Fargo Bank, National Association (“Wells Fargo”) provided us with a notice of non-renewal for the Wells Fargo Merchant Services merchant alliance (“WFMS”), which was accounted for as an equity method investment. Upon the expiration of the joint venture in April 2025, we received a cash payment of \$453 million. In connection with the non-renewal of WFMS, we entered into a multi-year agreement with Wells Fargo to provide processing for current and future merchant clients as well as other services to Wells Fargo’s merchant business.

Industry Trends

The global payments landscape continues to evolve, with rapidly advancing technologies and a steady expansion of digital payments, e-commerce and real-time payments infrastructure. Because of this growth, competition also continues to intensify. Business and consumer expectations continue to rise, with a focus on speed, convenience, choice and security. To meet these expectations, payments companies are focused on modernizing their technology, expanding the use of data and enhancing the customer experience. These innovations are driving a competitive landscape where customer expectations evolve rapidly as services digitize and choices multiply.

Merchants

The rapid growth in and globalization of mobile and e-commerce, driven by consumers' desire for simpler, more efficient shopping experiences, has created an opportunity for merchants to reach consumers nearly anywhere, through any device, which often requires a merchant acquiring provider to enable and optimize the acceptance of payments. Consumers are increasingly using digital wallets, contactless payments, and mobile-first solutions, making omnichannel strategies that integrate online, mobile, and in-store experiences essential for customer retention. Consumers expect instant and secure checkouts, making simplified payment orchestration critical. Merchants are demanding simpler, integrated and flexible systems to enable them to serve customers and help manage cash flow and everyday business operations. When combined with the ever-increasing ways a consumer can pay for goods and services, merchants have sought modern end-to-end solutions throughout their growth lifecycle to streamline the complexity. Merchants are moving beyond traditional payment acceptance to offer embedded financial services to deepen customer relationships and create new revenue streams. Unified commerce solutions and value-added services are becoming key differentiators in competitive markets. Furthermore, merchants can now search, discover, compare, purchase and even install a new system through direct, digital-only experiences. This direct, digital-only channel is a source of new merchant acquisition opportunities, especially with respect to smaller merchants.

Additionally, there are numerous software-as-a-service solution providers in the industry, many of which have chosen to integrate merchant acquiring into their software as a way to generate revenue from existing client relationships. Such providers are referred to as ISVs, and we believe there are numerous potential distribution partnership opportunities to cross-sell multiple value-added solutions available to us.

We believe that our merchant acquiring products and solutions create compelling value propositions for merchant clients of all sizes, from small and mid-sized businesses to medium-sized regional businesses to global enterprise merchants. The depth and breadth of our omnichannel solutions, and flexibility to serve clients across various channels and geographies, drives higher product attach rates with new and existing clients across all verticals. Furthermore, we believe that our strength in distribution, our progress growing software and services, and our value-based pricing as we continue to invest in our operating systems, gives us a solid foundation for growth. We are at the intersection of finance and commerce, creating opportunities for integrated solutions that combine payment acceptance, financial services, and data-driven insights.

Financial Institutions

Financial services providers regularly introduce and implement new payment, deposit, risk management, lending and investment products, and the distinctions among the products and services traditionally offered by different types of financial institutions continue to narrow as they seek to serve the same customers. At the same time, the evolving global regulatory and cybersecurity landscape has continued to create a challenging operating environment for financial institutions. These conditions are driving heightened interest in solutions that help financial institutions win and retain customers, generate revenue, comply with regulations and enhance operating efficiency. In addition, the focus on the customer experience, including through mobile and online engagement, by both financial institutions and their customers, as well as the growing volume and types of payment transactions in the marketplace, continues to elevate the data and transaction processing needs of financial institutions.

Financial institutions must be able to serve their customers with tailored solutions, delivered how and when those customers desire. In addition, financial institutions are striving for this single, integrated view of a customer's activity. This requires financial institutions to not only process customer transactions, but to integrate financial institutions' products and services to give customers easy access to integrated solutions. We believe that the integration of our products and services creates a compelling value proposition for our clients by providing, among other things, new sources of revenue and opportunities to reduce their costs. We have invested in integrating our platforms and value-added solutions to make it easy for a client to buy across our full product suite.

Demand for innovative payment solutions continues to grow, with a focus on faster, more convenient options across mobile channels, online applications, in-store cards, and digital currencies. Financial institutions are adopting advanced technologies, introducing new solutions, and responding to an increasingly complex regulatory landscape. We expect that financial institutions will continue to invest significant capital to process transactions, manage information, maintain regulatory

compliance and offer innovative new services to their customers in this rapidly evolving and competitive environmental shift from traditional to digital banking. Stablecoins and cryptocurrencies may also become more widely used as digital currencies provide increased accessibility and efficiency. We believe that economies of scale in developing and maintaining the infrastructure, technology, products, services and networks necessary to be competitive in such a dynamic environment are essential to justify these investments, and we anticipate that demand for products that facilitate customer interaction with financial institutions, including a unified, seamless customer experience across mobile and online channels, will continue to increase, which we expect to create revenue opportunities for us.

Recent Market Conditions

Global macroeconomic conditions, including changing interest rates; inflation; disruptions in the global supply chain; changes in consumer spending, including a rise in fuel prices in the first half of 2026; legislative changes, including potential effects of new tax laws; the effects of international hostilities; political conditions; regulations restricting trade or impacting our ability to offer products or services; and trade policies and tariffs, could have a material adverse effect on our business, results of operations and financial condition. A decline in personal consumption and consumer savings in the U.S. may also negatively impact our business and financial results. We actively monitor and manage our business in response to these unpredictable geopolitical and market conditions, as they may adversely impact our operations and financial results.

In addition, our operating results in certain foreign countries in which we operate may be adversely impacted by fluctuations in interest rates and exchange rates for currencies other than the U.S. dollar, including the Euro, British Pound, Indian Rupee, Brazilian Real and Argentine Peso. The strengthening of the U.S. dollar against certain foreign currencies in countries in which we operate would negatively impact our revenue and earnings. We also have exposure to risks related to currency devaluation in certain countries, which may negatively impact our international operating results if there is a prolonged devaluation of local currencies relative to the U.S. dollar or if the economic conditions in these countries decline. While the majority of our revenue is earned in the U.S., we actively monitor the interest rate and foreign exchange rate environment and may enter into derivative instruments and utilize other non-derivative hedging instruments with creditworthy institutions in an effort to manage these risks.

Changes in Critical Accounting Policies and Estimates

Our unaudited consolidated financial statements and accompanying notes have been prepared in accordance with accounting principles generally accepted in the United States of America, which require management to make estimates, judgments and assumptions that affect the reported amount of assets, liabilities, revenue and expenses. In our Annual Report on Form 10-K for the year ended December 31, 2025, we identified our critical accounting policies and estimates. We continually evaluate the accounting policies and estimates that we use to prepare our consolidated financial statements, including for recently adopted accounting pronouncements, and base our estimates on historical experience and assumptions that we believe are reasonable in light of current circumstances. Actual amounts and results could differ materially from these estimates. For example, we estimate the fair values of identifiable assets acquired and liabilities assumed in connection with acquisitions of businesses and may record purchase accounting adjustments during the measurement period, which may be up to one year from the acquisition date. Additionally, we review the carrying value of goodwill for impairment by comparing the estimated fair values of our reporting units to their respective carrying values. Determining the fair value of a reporting unit involves judgment and the use of significant estimates and assumptions, which include assumptions regarding the revenue growth rates and operating margins used to calculate estimated future cash flows, risk-adjusted discount rates, and future economic and market conditions. There have been no material changes to our critical accounting policies and estimates from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2025.

Results of Operations

The following tables present certain amounts included in our consolidated statements of income, the relative percentage that those amounts represent to revenue and the change in those amounts from year to year. This information should be read together with the unaudited consolidated financial statements and accompanying notes. The unaudited financial results presented below have been affected by acquisitions, expenses associated with our One Fiserv transformation initiative, net gains or losses on sale of assets, foreign currency fluctuations, and gains on early debt extinguishment associated with refinancing activities.

Revenue and operating income (loss) change percentages, as well as operating margin percentages are calculated using actual, unrounded amounts.

Total Revenue

Total revenue decreased \$224 million, or 4%, in the second quarter of 2026 and \$327 million, or 3%, in the first six months of 2026 compared to the prior year periods, primarily due to lower data and analytics sales and license revenue in both the second quarter and first six months of 2026. Revenue decreased 1% in our Merchant segment in both the second quarter and first six months of 2026 and decreased 8% and 6% in our Financial segment in the second quarter and first six months of 2026, respectively, compared to the prior year periods.

Revenue in our Merchant segment decreased \$36 million, or 1%, in the second quarter of 2026 and \$35 million, or 1%, in the first six months of 2026 compared to the prior year periods. Small Business contributed a 1% decline to Merchant segment revenue in the second quarter of 2026 and its contribution was flat in the first six months of 2026; Enterprise's contribution was flat in both the second quarter and first six months of 2026; and Processing contributed a 1% decline to Merchant segment

revenue in both the second quarter and first six months of 2026. The decrease in revenue in our Merchant segment in the second quarter and first six months of 2026 was primarily due to a \$45 million and \$72 million decrease, respectively, in anticipation revenue in Argentina, attributed to lower inflation and interest rates, as well as a decline in hardware revenue in both periods. Revenue in our Merchant segment was also negatively impacted by lower data and analytics sales across Small Business, Enterprise and Processing compared to the prior year periods. The overall decrease in revenue in our Merchant segment was partially offset by Small Business volume growth, including from our Clover POS and business management platform.

Revenue in our Financial segment decreased \$197 million, or 8%, in the second quarter of 2026 and \$312 million, or 6%, in the first six months of 2026 compared to the prior year periods. Digital Payments contributed a 2% decline to Financial segment revenue in both the second quarter and first six months of 2026; Issuing contributed a 4% and 3% decline in the second quarter and first six months of 2026, respectively; and Banking contributed a 2% and 1% decline to Financial segment revenue in the second quarter and first six months of 2026, respectively. Revenue in our Financial segment in the second quarter and first six months of 2026 was negatively impacted by lower data and analytics sales and license revenue compared to the prior year periods, primarily within Digital Payments and Issuing.

Revenue at Corporate and Other increased \$9 million, or 3%, in the second quarter and increased \$20 million, or 3%, in the first six months of 2026 compared to the prior year periods, due to an increase in postage revenue.

Total Expenses

Total expenses increased \$457 million, or 12%, in the second quarter of 2026 and \$831 million, or 11%, in the first six months of 2026 compared to the prior year periods. Total expenses as a percentage of total revenue increased to 80.8% in the second quarter of 2026 and to 81.3% in the first six months of 2026 compared to 69.3% and 71.0%, respectively, in the prior year periods. Total expenses as a percentage of total revenue were impacted by higher costs to support the client experience, including personnel costs of approximately 580 basis points and 530 basis points; costs associated with our strategic One Fiserv transformation program of approximately 350 basis points and 320 basis points; and data processing costs, including increased technology infrastructure expenses, of approximately 280 basis points and 260 basis points in the second quarter and first six months of 2026, respectively. Total expenses as a percentage of total revenue in the first six months of 2026 was favorably impacted by a net gain on the sale-leaseback of certain facilities of \$83 million.

Cost of processing and services as a percentage of processing and services revenue increased to 39.7% in the second quarter of 2026 compared to 32.8% in the second quarter of 2025 and increased to 39.7% in the first six months of 2026 compared to 33.5% in the first six months of 2025. Cost of processing and services as a percentage of processing and services revenue was negatively impacted by higher personnel costs of approximately 330 basis points and 300 basis points; costs associated with our strategic One Fiserv transformation program of approximately 180 basis points and 190 basis points; and higher data processing costs, including increased technology infrastructure expenses, of approximately 200 basis points and 180 basis points in the second quarter and first six months of 2026, respectively.

Cost of product as a percentage of product revenue increased to 68.9% in the second quarter of 2026 compared to 57.3% in the second quarter of 2025 and increased to 70.8% in the first six months of 2026 compared to 60.0% in the first six months of 2025. Cost of product as a percentage of product revenue in the second quarter and first six months of 2026 was negatively impacted by higher personnel costs of approximately 260 basis points and 250 basis points, respectively, as well as a decrease in total company high margin data and analytics sales and license revenue compared to the prior year periods.

Selling, general and administrative expenses as a percentage of total revenue increased to 35.7% in the second quarter of 2026 compared to 31.0% in the second quarter of 2025 and increased to 36.6% in the first six months of 2026 compared to 31.9% in the first six months of 2025. Selling, general and administrative expenses as a percentage of total revenue was negatively impacted by higher personnel costs of approximately 230 basis points and 220 basis points; costs associated with our strategic One Fiserv transformation program of approximately 200 basis points and 160 basis points; and higher payments to distribution partners of approximately 130 basis points and 110 basis points in the second quarter and first six months of 2026, respectively.

The first six months of 2026 included a net gain on the sale-leaseback of certain facilities of \$83 million.

Operating Income and Operating Margin

Total operating income decreased \$681 million, or 40%, in the second quarter of 2026 and \$1.2 billion, or 37%, in the first six months of 2026 compared to the prior year periods. Total operating margin decreased to 19.2% and 18.7% in the second quarter and first six months of 2026 compared to 30.7% and 29.0%, respectively, in the prior year periods. Total operating income and total operating margin in both the second quarter and first six months of 2026 were negatively impacted by a decrease in high margin license revenue and data and analytics sales, along with higher costs to support the client experience, including

personnel costs, costs associated with our strategic One Fiserv transformation program, and data processing costs, including increased technology infrastructure expenses.

Operating income in our Merchant segment decreased \$133 million, or 14%, in the second quarter of 2026 and \$317 million, or 18%, in the first six months of 2026 compared to the prior year periods. Operating margin decreased to 30.0% and 28.3% in the second quarter and first six months of 2026 compared to 34.6% and 34.4%, respectively, in the prior year periods. Operating income and operating margin in our Merchant segment were negatively impacted by a decrease in anticipation revenue in Argentina, as well as a decrease in high margin data and analytics sales in both the second quarter and first six months of 2026. Operating income and operating margin in our Merchant segment were also negatively impacted by higher payments to distribution partners in both the second quarter and first six months of 2026.

Operating income in our Financial segment decreased \$332 million, or 27%, in the second quarter of 2026 and \$603 million, or 25%, in the first six months of 2026 compared to the prior year periods. Operating margin decreased to 38.7% and 38.4% in the second quarter and first six months of 2026 compared to 48.7% and 48.1%, respectively, in the prior year periods. The decrease in operating income and operating margin in our Financial segment in the second quarter and first six months of 2026 was primarily due to a decrease in high margin license revenue and data and analytics sales and higher personnel costs.

The operating loss in Corporate and Other increased \$216 million in the second quarter of 2026 and increased \$238 million in the first six months of 2026 compared to the prior year periods. The operating loss in the second quarter and first six months of 2026 included costs associated with our strategic One Fiserv transformation program of \$187 million and \$329 million, respectively. The operating loss in the first six months of 2026 was partially offset by a net gain of \$83 million on the sale-leaseback of certain facilities.

Interest Expense, Net

Interest expense, net increased \$5 million, or 1%, in the second quarter of 2026 and \$21 million, or 3%, in the first six months of 2026 compared to the prior year periods due to debt financing activities, including our public offering and issuances of \$2.0 billion and €2.175 billion of senior notes in August 2025 and May 2025, respectively, as well as an increase in finance lease and other financing obligations, partially offset by lower variable weighted average interest rates on our foreign lines of credit used to advance funds under our settlement anticipation program in Latin America. Interest expense, net in the second quarter and first six months of 2026 also includes the recognition of \$22 million of unamortized losses on treasury lock agreements associated with a portion of our senior notes due in July 2049 that were early extinguished during the second quarter of 2026.

Gain on Early Debt Extinguishment

In June 2026, we purchased through a cash tender offer and open market repurchase a portion of our outstanding 5.150% senior notes due in March 2027 and 4.400% senior notes due in July 2049. Upon expiration of the cash tender offer, \$1.3 billion aggregate principal amount of the senior notes was tendered and accepted for purchase for total consideration of \$1.2 billion paid to holders. Additionally, \$28 million aggregate principal amount of the senior notes due in July 2049 was retired through an open market repurchase for total consideration of \$23 million paid to holders. This activity resulted in a pre-tax gain on early debt extinguishment of \$154 million recorded in the second quarter of 2026.

Other Expense, Net

Other expense, net decreased \$15 million, or 38%, in the second quarter of 2026 and \$55 million, or 96%, in the first six months of 2026 compared to the prior year periods. Other expense, net includes the remeasurement of monetary assets and liabilities for subsidiaries located in highly inflationary economies, gains or losses from a sale or change in fair value of investments in equity securities, and amounts related to debt guarantee arrangements of certain joint ventures. The remeasurement of monetary assets and liabilities of subsidiaries located in Argentina, a highly inflationary economy, resulted in foreign currency exchange losses of \$30 million and \$46 million for the three months ended June 30, 2026 and 2025, and \$9 million and \$64 million for the six months ended June 30, 2026 and 2025, respectively.

Income Tax Provision

The income tax provision as a percentage of income before income taxes and income (loss) from investments in unconsolidated affiliates was 20.2% and 19.0% for the three months ended June 30, 2026 and 2025, and 13.2% and 18.6% for the six months ended June 30, 2026 and 2025, respectively. The effective income tax rate for the six months ended June 30, 2026 included the impact of a \$293 million benefit related to the release of a valuation allowance against certain foreign net operating loss carryforwards that were determined to be realizable during the first quarter of 2026. This benefit was partially offset by a \$39 million increase in U.S. federal unrecognized tax benefits for tax positions taken in prior years, \$35 million in discrete tax

expense from share-based awards and a \$39 million increase in various other foreign valuation allowances during the first quarter of 2026. The net impact of these items resulted in a lower effective income tax rate compared to the statutory tax rate and prior year period. The effective income tax rate for the first six months ended June 30, 2025 included discrete tax benefits from share-based awards, resulting in a lower effective income tax rate compared to the statutory income tax rate.

Income (Loss) from Investments in Unconsolidated Affiliates

Our share of income or loss from unconsolidated affiliates accounted for using the equity method is reported within income (loss) from investments in unconsolidated affiliates, and the related tax expense or benefit is reported within the income tax provision in the consolidated statements of income. Income (loss) from investments in unconsolidated affiliates, including acquired intangible asset amortization from valuations in purchase accounting, was \$11 million and \$(16) million in the second quarter of 2026 and 2025, and \$15 million and \$(24) million in the first six months of 2026 and 2025, respectively. Loss from investments in unconsolidated affiliates in the second quarter and first six months of 2025 included \$16 million of non-cash impairment charges.

Net Income Attributable to Noncontrolling Interests

Net income attributable to noncontrolling interests relates to the minority partners' share of the net income in our consolidated subsidiaries and was \$3 million and \$4 million in the second quarter of 2026 and 2025, and \$5 million and \$1 million in the first six months of 2026 and 2025, respectively.

Net Income Per Share – Diluted

Net income attributable to Fiserv, Inc. per share-diluted was \$1.17 and \$1.86 in the second quarter of 2026 and 2025, and was \$2.24 and \$3.36 in the first six months of 2026 and 2025, respectively, driven by the impacts to net income attributable to Fiserv, Inc. described above. Net income attributable to Fiserv, Inc. per share-diluted also includes the impact of a reduction in our diluted weighted average outstanding shares due to our share repurchase program (1.7 million and 12.2 million shares of common stock were repurchased in the second quarter of 2026 and 2025, and 5.0 million and 21.9 million shares of common stock were repurchased in the first six months of 2026 and 2025, respectively).

Liquidity and Capital Resources

General

Our primary liquidity needs in the ordinary course of business are to: (i) fund normal operating expenses; (ii) meet the interest and principal requirements of our outstanding indebtedness, including finance lease and other financing obligations; and (iii) fund capital expenditures and operating lease payments. We believe these needs will be satisfied in both the short and long term using cash flow generated by our operations, along with our cash and cash equivalents of \$627 million, proceeds from the issuance of U.S. dollar and Euro commercial paper, and available capacity under our revolving credit facility of \$4.2 billion (net of \$3.8 billion of capacity designated for outstanding borrowings under our commercial paper programs, senior notes due within the next 12 months and letters of credit) at June 30, 2026.

The following table summarizes our net cash provided by operating activities, or operating cash flow, and capital expenditures:

(In millions)	Six Months Ended June 30,		Increase (Decrease)	
	2026	2025	\$	%
Net income	\$ 1,203	\$ 1,878	\$ (675)	
Depreciation and amortization	1,701	1,592	109	
Share-based compensation	235	215	20	
Deferred income taxes	(170)	(215)	45	
Net gain on sale of assets	(89)	(17)	(72)	
Net gain on early debt extinguishment	(130)	—	(130)	
(Income) loss from investments in unconsolidated affiliates	(15)	24	(39)	
Distributions from unconsolidated affiliates	19	22	(3)	
Non-cash foreign currency exchange losses	9	65	(56)	
Net changes in working capital and other	(681)	(1,251)	570	
Net cash provided by operating activities	<u>\$ 2,082</u>	<u>\$ 2,313</u>	<u>\$ (231)</u>	(10)%
Capital expenditures, including capitalized software and other intangibles	<u>\$ 956</u>	<u>\$ 814</u>	<u>\$ 142</u>	17 %

Our operating cash flow was \$2.1 billion in the first six months of 2026, a decrease of 10% compared with \$2.3 billion in the first six months of 2025. The decrease was primarily attributable to lower profitability, partially offset by a lower use of working capital compared to the first six months of 2025, including trade accounts receivable collections and timing of prepaid expenses and accounts payable.

Our current policy is to use our operating cash flow primarily to fund capital expenditures, merchant and settlement anticipation cash advances, share repurchases, acquisitions and to repay debt rather than to pay dividends. Our capital expenditures were approximately 9% and 8% of our total revenue for the first six months of 2026 and 2025, respectively.

Share Repurchases

We repurchased 1.7 million shares of our common stock for approximately \$100 million and 12.2 million shares of our common stock for \$2.2 billion during the second quarter of 2026 and 2025, respectively. We repurchased 5.0 million shares of our common stock for approximately \$300 million and 21.9 million shares of our common stock for \$4.4 billion during the first six months of 2026 and 2025, respectively. On February 19, 2025, our board of directors authorized the purchase of up to 60.0 million shares of our common stock. This authorization does not expire. As of June 30, 2026, we had approximately 40.8 million shares remaining under our existing repurchase authorization. Shares repurchased are generally held for issuance in connection with our equity plans.

Acquisitions and Other Transactions

Acquisitions of Businesses

We acquired StoneCastle, TD Merchant Canada, SCG, CardFree, Money Money, Pinch Payments, CCV, and Payfare in 2025 for an aggregate purchase price, including deferred payments, of \$857 million, net of \$84 million of acquired cash and including earn-out provisions estimated at a fair value of \$35 million. We funded these acquisitions by utilizing a combination of available cash and commercial paper. The results of operations for these acquired businesses are included in our consolidated results from the respective dates of acquisition.

Other Transactions

In May 2026, we entered into asset purchase and sale agreements with certain third parties providing for the monthly sale of certain future credit card receivables originated under our merchant cash advance programs. Aggregate proceeds from the sales of merchant cash advance receivables under these arrangements were \$152 million during the six months ended June 30, 2026. The proceeds from these sales were primarily used to pay down indebtedness. Monthly sales of future credit card receivables under these agreements are expected to occur throughout the foreseeable future.

In the first quarter of 2026, we entered into sale leaseback arrangements for certain of our facilities for an aggregate net sales price of \$201 million. The proceeds, which were received in the first six months of 2026, were primarily used for general corporate purposes, including the repayment of debt.

In September 2025, we acquired the remaining 49.9% ownership interest, including cash held of \$195 million, in AIBMS for \$420 million. In April 2025, we acquired the remaining 19% ownership interest in ICICI Merchant Services Private Limited for \$22 million. We previously held a majority controlling financial interest in each of these consolidated subsidiaries and funded these transactions utilizing a combination of available cash and proceeds from commercial paper borrowings.

In 2024, Wells Fargo provided us with a notice of non-renewal for WFMS and upon the expiration of the joint venture in April 2025, we received a cash payment of \$453 million, which was primarily used to pay down indebtedness and for share repurchases.

Indebtedness

Our debt consisted of the following at:

(In millions)	June 30, 2026	December 31, 2025
Short-term and current maturities of long-term debt:		
Foreign lines of credit	\$ 618	\$ 762
Finance lease and other financing obligations	589	477
Total short-term and current maturities of long-term debt	<u>\$ 1,207</u>	<u>\$ 1,239</u>
Long-term debt:		
3.200% senior notes due July 2026	\$ 2,000	\$ 2,000
5.150% senior notes due March 2027	234	750
2.250% senior notes due June 2027	1,000	1,000
1.125% senior notes due July 2027 (Euro-denominated)	569	589
5.450% senior notes due March 2028	900	900
2.875% senior notes due June 2028 (Euro-denominated)	854	883
5.375% senior notes due August 2028	700	700
4.200% senior notes due October 2028	1,000	1,000
3.500% senior notes due July 2029	3,000	3,000
4.750% senior notes due March 2030	850	850
2.650% senior notes due June 2030	1,000	1,000
1.625% senior notes due July 2030 (Euro-denominated)	569	589

5.150% senior notes due August 2034	900	900
5.250% senior notes due August 2035	1,000	1,000
4.000% senior notes due June 2036 (Euro-denominated)	740	765
4.400% senior notes due July 2049	1,156	2,000
U.S. dollar commercial paper notes	—	326
Euro commercial paper notes	548	839
Revolving credit facility	—	188
Unamortized discount and deferred financing costs	(150)	(169)
Fair value hedge accounting adjustments	(22)	—
Finance lease and other financing obligations	1,757	1,635
Total long-term debt	<u>\$ 26,679</u>	<u>\$ 27,758</u>

In June 2026, we completed the public offering and issuance of €1.0 billion of senior notes, comprised of €500 million aggregate principal amount of 3.750% senior notes due in October 2030 and €500 million aggregate principal amount of 4.250% senior notes due in June 2034. We used the net proceeds from this senior notes offering, together with proceeds from

the sale of U.S. dollar commercial paper and cash from operations, to purchase through a cash tender offer and open market repurchase a portion of our outstanding 5.150% senior notes due in March 2027 (the “2027 notes”) and 4.400% senior notes due in July 2049 (the “2049 notes”). Upon expiration of the cash tender offer, \$1.3 billion aggregate principal amount of the 2027 and 2049 notes was tendered and accepted for purchase for total consideration of \$1.2 billion paid to holders. Additionally, \$28 million aggregate principal amount of the 2049 notes was retired through an open market repurchase for total consideration of \$23 million paid to holders. In July 2026, an additional \$47 million aggregate principal amount of the 2049 notes was retired through an open market repurchase for total consideration of \$38 million.

In August 2025, we completed the public offering and issuance of \$2.0 billion of senior notes, comprised of \$1.0 billion aggregate principal amount of 4.550% senior notes due in February 2031 and \$1.0 billion aggregate principal amount of 5.250% senior notes due in August 2035. We used the net proceeds from this senior notes offering for general corporate purposes, including the repayment of a portion of our commercial paper notes and for share repurchases.

In May 2025, Fiserv Funding Unlimited Company, an indirect wholly owned subsidiary of Fiserv, Inc., completed the public offering and issuance of €2.175 billion of senior notes, comprised of €750 million aggregate principal amount of 2.875% senior notes due in June 2028 (the “2028 notes”), €775 million aggregate principal amount of 3.500% senior notes due in June 2032 (the “2032 notes”) and €650 million aggregate principal amount of 4.000% senior notes due in June 2036 (the “2036 notes”). Fiserv, Inc. has fully and unconditionally guaranteed these notes on a senior unsecured basis. We used the net proceeds from this senior notes offering for general corporate purposes, including the repayment of a portion of our commercial paper notes, 3.850% senior notes due in June 2025 and 2.250% senior notes due in July 2025.

At June 30, 2026, our debt consisted primarily of fixed-rate senior notes in the aggregate principal amount of \$24.5 billion. Interest on our U.S. dollar-denominated senior notes is paid semi-annually, while interest on our Euro and British Pound-denominated senior notes is paid annually. Interest on our revolving credit facility and commercial paper notes is generally paid weekly, or more frequently on occasion. A portion of our senior notes, in the aggregate notional amount of \$1.5 billion, are designated as fair value hedges through fixed-to-floating interest rate swap contracts, which economically changes the hedged notes to variable rate debt. The fair value adjustments associated with our hedged senior notes, as reflected in the table above, are offset by the change in the fair value of the fixed-to-floating interest rate swap contracts.

At June 30, 2026, the 3.200% senior notes due in July 2026, 5.150% senior notes due in March 2027, and 2.250% senior notes due in June 2027 were classified in the consolidated balance sheet as long-term, as we have the intent to refinance this debt on a long-term basis, and the ability to do so under our commercial paper programs and revolving credit facility. Outstanding borrowings under the commercial paper programs are also classified in the consolidated balance sheet as long-term, as we have the intent to refinance this commercial paper on a long-term basis through the continued issuance of new commercial paper upon maturity, and also have the ability to refinance such commercial paper under our revolving credit facility.

Variable Rate Debt

Our variable rate debt consisted of the following at June 30, 2026:

(In millions)	Maturity	Weighted-Average Interest Rate	Outstanding Borrowings
Foreign lines of credit	various	17.401%	\$ 618
Euro commercial paper notes	various	2.493%	548
Total variable rate debt		10.406%	\$ 1,166

We maintain various short-term lines of credit and other borrowing arrangements with foreign banks and alliance partners primarily to fund advances associated with operations in Latin America through our settlement anticipation program. The following table provides a summary of the outstanding borrowings and weighted average interest rates of our foreign lines of credit and other borrowing arrangements by country at June 30, 2026:

	Weighted-Average Interest Rate	Outstanding Borrowings (In millions)
Argentina	25.848 %	\$ 236
Brazil	14.700 %	259
Uruguay and Other	6.962 %	123
Total	17.401 %	\$ 618

We offer advanced funding of settlement activity associated with operations in Latin America through our settlement anticipation program by utilizing local operating cash and various short-term lines of credit. In the event we are unable to continue to borrow in the local Latin America markets, we may fund future advances with our consolidated cash and cash equivalents and available capacity under our revolving credit facility.

We maintain unsecured U.S. dollar and Euro commercial paper programs with various maturities generally ranging from one day to four months. Outstanding borrowings under our commercial paper programs bear interest based on the prevailing rates at the time of issuance.

We also maintain a senior unsecured multicurrency revolving credit facility, which matures in August 2030 and provides for a maximum aggregate principal amount of availability of \$8.0 billion. Borrowings under the credit facility bear interest at a variable base rate, determined by the term and currency of the borrowing, plus a specified margin based on our long-term debt rating. There were no outstanding borrowings under the revolving credit facility at June 30, 2026. We are required to pay a facility fee based on the aggregate commitments in effect under the credit agreement from time to time.

Debt Covenants and Compliance

The indentures governing our senior notes contain covenants that, among other matters, limit (i) our ability to consolidate or merge with or into, or convey, transfer or lease all or substantially all of our properties and assets to, another person, (ii) our and certain of our subsidiaries' ability to create or assume liens, and (iii) our and certain of our subsidiaries' ability to engage in sale and leaseback transactions. We may, at our option, redeem the senior notes, in whole or in part, at any time and from time to time, at the applicable redemption price.

The revolving credit facility contains various restrictions and covenants that require us to, among other things, limit our consolidated indebtedness as of the end of each fiscal quarter to no more than 3.75 times our consolidated net income before interest, taxes, depreciation, amortization, non-cash charges and expenses and certain other adjustments during the period of four fiscal quarters then ended, subject to certain exceptions.

During the first six months of 2026, we were in compliance with all financial debt covenants. Our ability to meet future debt covenant requirements will depend on our continued ability to generate earnings and cash flows. We expect to remain in compliance with all terms and conditions associated with our outstanding debt, including financial debt covenants.

Debt Guarantees

We maintain noncontrolling ownership interests in Sagent M&C, LLC and defi SOLUTIONS Group, LLC (collectively, the "Lending Joint Ventures"). The Lending Joint Ventures maintain variable-rate term loan facilities with aggregate outstanding borrowings of \$388 million in senior unsecured debt at June 30, 2026 and variable-rate revolving credit facilities with an aggregate borrowing capacity of \$83 million with a syndicate of banks, which mature in April 2027. There were \$36 million of aggregate outstanding borrowings on the revolving credit facilities at June 30, 2026. We have guaranteed the debt of the Lending Joint Ventures. We maintained a liability of \$7 million at June 30, 2026 for the estimated fair value of our non-contingent obligations to stand ready to perform over the term of the guarantee arrangements. Such guarantees will be amortized in future periods over the contractual term of the debt. In addition, we maintained a contingent liability of \$4 million at June 30, 2026, representing the current expected credit losses to which we are exposed. This contingent liability is estimated based on certain financial metrics of the Lending Joint Ventures and historical industry data, which is used to develop assumptions of the likelihood the guaranteed parties will default and the level of credit losses in the event a default occurs. We have not made any payments under the guarantees, nor have we been called upon to do so, and do not anticipate that the Lending Joint Ventures will fail to fulfill their debt obligations.

Supplemental Guarantor Information

Fiserv, Inc. has fully, unconditionally and solely guaranteed on a senior unsecured basis the 2028 notes, 2032 notes and 2036 notes (the "Guaranteed Notes") issued by Fiserv Funding Unlimited Company (the "Issuer"), an indirect wholly owned subsidiary of Fiserv, Inc. No other subsidiary of Fiserv, Inc. or the Issuer has guaranteed the Guaranteed Notes. The Guaranteed Notes are the Issuer's unsecured senior obligations and rank equally with other unsecured senior indebtedness of the Issuer from time to time outstanding. The guarantees of Fiserv, Inc. are unsecured senior obligations of Fiserv, Inc. and rank equally with other unsecured senior indebtedness of Fiserv, Inc. from time to time outstanding.

Cash and Cash Equivalents

Investments, exclusive of settlement assets, with original maturities of 90 days or less that are readily convertible to cash are considered to be cash equivalents as reflected within our consolidated balance sheets.

The table below details our cash and cash equivalents held at:

(In millions)	June 30, 2026	December 31, 2025
Available	\$ 245	\$ 342
Unavailable ⁽¹⁾	382	456
Total	\$ 627	\$ 798

⁽¹⁾ Represents cash associated with intermediary settlement advances; wholly owned entities subject to regulatory requirements; cash in transit; or cash in our joint ventures that is not available to fund operations outside of the respective entities unless approved by the board of directors of the relevant entity.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk refers to the risk that a change in the level of one or more market prices, interest rates, inflation, currency exchange rates, indices, correlations or other market factors, such as liquidity, will result in losses for a certain financial instrument or group of financial instruments. Our senior management actively monitors certain market risks to which we are exposed, primarily from fluctuations in interest rates and foreign currency exchange rates. In order to limit our exposure to these risks, we may enter into derivative instruments with creditworthy institutions to hedge against changing interest rates and foreign currency rate fluctuations. We currently utilize forward exchange contracts, fixed-to-fixed cross-currency rate swap contracts, fixed-to-floating interest rate swap contracts and other non-derivative hedging instruments to manage risk.

Our exposure to foreign currency exchange risks generally arises from our international operations to the extent they are conducted in local currency. The major currencies to which we are exposed to are the Argentine Peso, Brazilian Real, British Pound, Euro and Indian Rupee. Changes in the value of underlying monetary assets and liabilities of our non-U.S. dollar-denominated foreign investments and foreign currency transactions in highly inflationary economies may result in foreign currency exchange losses. We also have exposure to risks related to currency devaluation in certain countries, which may negatively impact our international operating results if there is a prolonged devaluation of local currencies relative to the U.S. dollar or if the economic conditions in these countries decline. In April 2025, the Argentine government announced economic policy changes, including the removal of certain currency controls, resulting in a significant devaluation of the Argentine Peso. Additionally, the Argentine Peso experienced significant volatility during 2025 due to the economic landscape in Argentina. The remeasurement of monetary assets and liabilities of subsidiaries located in Argentina, a highly inflationary economy, resulted in foreign currency exchange losses of \$30 million and \$46 million for the three months ended June 30, 2026 and 2025, respectively, and \$9 million and \$64 million for the six months ended June 30, 2026 and 2025, respectively, which is included within other income (expense), net in the consolidated statements of income.

Additional information about market risks to which we are exposed is included within Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2025. There were no significant changes to our quantitative and qualitative analyses about market risk during the six months ended June 30, 2026.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934 (the “Exchange Act”), our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective as of June 30, 2026.

Changes in Internal Control Over Financial Reporting

There was no change in internal control over financial reporting that occurred during the three months ended June 30, 2026 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See the information set forth in Note 17, Commitments and Contingencies – Litigation and Investigation Matters, which is incorporated by reference in response to this item.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The table below sets forth information with respect to purchases made by or on behalf of us or any “affiliated purchaser” (as defined in Rule 10b-18(a)(3) under the Exchange Act) of shares of our common stock during the three months ended June 30, 2026:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
April 1-30, 2026	—	\$ —	—	42,610,527
May 1-31, 2026	1,440,000	56.28	1,440,000	41,170,527
June 1-30, 2026	329,792	57.50	329,792	40,840,735
Total	<u>1,769,792</u>		<u>1,769,792</u>	

⁽¹⁾ On February 19, 2025, our board of directors authorized the purchase of up to 60.0 million shares of our common stock. This authorization does not expire.

ITEM 5. OTHER INFORMATION

(c) During the three months ended June 30, 2026, none of the Company’s directors or Section 16 officers adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” each as defined in Item 408(a) of Regulation S-K.

ITEM 6. EXHIBITS

The exhibits listed in the accompanying exhibit index are filed as part of this Quarterly Report on Form 10-Q.

Exhibit Index

Exhibit Number	Exhibit Description
4.1	<u>Thirty-Ninth Supplemental Indenture, dated as of June 23, 2026, by and between Fiserv, Inc. and U.S. Bank Trust Company, National Association (including Form of 3.750% Senior Notes due 2030) (incorporated by reference to Exhibit 4.1 to the Company's Current Report on Form 8-K filed on June 23, 2026).</u>
4.2	<u>Fortieth Supplemental Indenture, dated as of June 23, 2026, by and between Fiserv, Inc. and U.S. Bank Trust Company, National Association (including Form of 4.250% Senior Notes due 2034) (incorporated by reference to Exhibit 4.2 to the Company's Current Report on Form 8-K filed on June 23, 2026).</u>
4.3	<u>Agency Agreement, dated as of June 23, 2026, by and among Fiserv, Inc., as issuer, U.S. Bank Europe DAC, UK Branch, as paying agent, and U.S. Bank Trust Company, National Association, as trustee and security registrar (incorporated by reference to Exhibit 4.3 to the Company's Current Report on Form 8-K filed on June 23, 2026).</u>
10.1	<u>Non-Employee Director Compensation Schedule**</u>
10.2	<u>Offer Letter between Fiserv, Inc. and Takis Georgakopoulos, dated June 14, 2026 (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed on June 15, 2026). **</u>
10.3	<u>Letter Agreement between Fiserv, Inc. and Paul M. Todd, dated June 14, 2026 (incorporated by reference to Exhibit 10.2 to the Company's Current Report on Form 8-K filed on June 15, 2026). **</u>
22	<u>Subsidiary Issuers of Guaranteed Securities (incorporated by reference to Exhibit 22 to the Company's Quarterly Report on Form 10-Q filed on July 24, 2025).</u>

NON-EMPLOYEE DIRECTOR COMPENSATION SCHEDULE

Overview

A summary of our annual non-employee director compensation is provided below:

Annual Equity Grant	\$ 230,000
Board Fee	\$ 100,000
Chairman Fee	\$ 200,000
Committee Fee – Nominating and Corporate Governance; Talent and Compensation	\$ 15,000
Committee Fee – Audit; Risk	\$ 20,000
Committee Chair Fee – Nominating and Corporate Governance; Risk; Talent and Compensation	\$ 20,000
Committee Chair Fee – Audit	\$ 25,000

The chairman fee is paid half in cash and half in restricted stock units. Upon being elected or re-elected as: (i) a director, each non-employee director receives such number of restricted stock units as is determined by dividing \$230,000 by the closing price of our common stock on the grant date; and (ii) Chairman, the Chairman receives such number of restricted stock units as is determined by dividing \$100,000 by the closing price of our common stock on the grant date. The chairman fee is in addition to the standard board fee and annual equity grant, and the committee chair fees are in addition to the base committee fee.

Restricted stock units vest 100% on the earlier of (i) the first anniversary of the grant date or (ii) immediately prior to the first annual meeting of shareholders following the grant date. Committee fees are payable with respect to each committee on which a director serves. All cash fees are payable quarterly in arrears.

Deferred Compensation Plan

Under our non-employee director deferred compensation plan, each non-employee director may defer up to 100% of his or her cash fees. Based on his or her deferral election, the director is credited with a number of share units at the time he or she would have otherwise received the portion of the fees being deferred. In addition, each non-employee director may defer receipt of up to 100% of shares due upon vesting of restricted stock units, and based on his or her election, the director is credited with one share unit for the receipt of each such share that is deferred. Share units are equivalent to shares of our common stock except that share units have no voting rights.

Upon cessation of service on the board, the director receives a share of our common stock for each share unit. Directors elect whether the shares are received in a lump sum distribution or in annual installments over two to fifteen years, and any fractional share units are paid in cash. Share units credited to a director's account are considered awards granted under the Amended and Restated Fiserv, Inc. 2007 Omnibus Incentive Plan and count against that plan's share reserve.

CERTIFICATION PURSUANT TO SECTION 302
OF THE SARBANES-OXLEY ACT OF 2002

I, Panagiotis Georgakopoulos, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Fiserv, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report on Form 10-Q of Fiserv, Inc. (the “Company”) for the quarter ended June 30, 2026 as filed with the Securities and Exchange Commission on the date hereof (the “Report”), Panagiotis Georgakopoulos, as Chief Executive Officer of the Company, and Paul M. Todd, as Chief Financial Officer of the Company, each hereby certify, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that to the best of his knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
