NOTES TO FINANCIAL STATEMENTS

1. Principles of Consolidation

The consolidated balance sheet as of March 31, 1996, and the related consolidated statements of income and cash flows for the three-month periods ended March 31, 1996 and 1995 are unaudited. In the opinion of management, all adjustments necessary for a fair presentation of such financial statements have been included. Such adjustments consisted only of normal recurring items. Interim results are not necessarily indicative of results for a full year.

The financial statements and notes are presented as permitted by Form 10-Q, and do not contain certain information included in the annual financial statements and notes of Fiserv, Inc. and subsidiaries (the Company or the Registrant).

2. Shares Used in Computing Net Income per Share

	Three Months Ended	
	March 31,	
	1996	1995
	-----	
	(In thousands)	
Weighted average number of common shares outstanding	44,944	40,129
Shares issuable upon exercise of options reduced by the number of shares which could have been purchased with the proceeds of such exercise	975	814
	-----	-----
Shares used	45,919	40,943
	-----	-----

Income per common and common equivalent share is computed using the weighted average number of common and dilutive common equivalent shares outstanding during the periods.

### 3. Accounting for Income Taxes

Deferred income taxes reflect the net tax effects of (a) temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes, and (b) operating and tax credit carryforwards. Significant components of the Company's net deferred tax liability as of March 31, 1996 and December 31, 1995 are as follows:

	March, 31 1996	December 31, 1995

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of Operations

The following table sets forth, for the periods indicated, the results of operations as a percentage of revenues represented by certain income and expense items and the percentage change in those items.

	Three Months Ended		
	March 31, 1996	1995	Percentage Increase
	Percent of Revenues (Decrease)		
Revenues	100.00%	100.00%	23.88%
	-----	-----	
Salaries and related costs	46.58	47.86	20.57
Data processing costs	12.47	14.39	7.33
Other operating expenses	17.67	17.81	22.92
Depreciation and amortization	5.29	5.80	13.12
Amortization of intangible assets	2.73	1.91	77.53
Capitalization of software-net	(0.41)	(1.05)	(51.73)
	-----	-----	
Total cost of revenues	84.33	86.72	20.48
	-----	-----	
Operating income	15.67	13.28	46.02
	=====	=====	

#### REVENUES

Revenues increased 23.9% from \$157.2 million in the first quarter of 1995 to \$194.7 in the current first quarter. Approximately 70% of this growth resulted from the inclusion of revenues from the date of purchase of acquired companies and approximately 30% from increases in revenue from the addition of new clients, growth in the transaction volume experienced by existing clients and price increases.

#### COST OF REVENUES

Cost of revenues increased 20.5% from \$136.3 million in the first quarter of 1995 to \$164.2 million in the current first quarter. Salaries, data processing, other operating expenses and depreciation and amortization all increased

at a rate that was lower than the rate of increase for revenues. Amortization of intangible assets increased at a disproportionate rate due to the intangible assets recorded in the acquisition of Information Technology, Inc. Capitalization of software decreased as a percentage of revenue, a trend which is expected to continue as the amortization of such software begins to approximate the capitalizable portion of software development costs.

#### OPERATING INCOME

Operating income increased 46% from \$20.9 million in the first quarter of 1995 to \$30.5 million in the current first quarter. As a percentage of revenues, operating income improved 2.4% in the first quarter of 1996 as compared to the prior year period.

#### NET INTEREST EXPENSE

As a result of acquisitions since the first quarter of 1995, which were partially funded through borrowing, net interest expense increased from \$1.8 million in the first quarter of 1995 to \$5.7 million in the current first quarter.

#### INCOME TAX PROVISION

Income taxes were computed at 41% in both 1996 and 1995. The 41% rate is expected to apply throughout the current year.

#### NET INCOME

Net income grew 30% from \$11.2 million in the first quarter of 1995 to \$14.7 million in the first quarter of 1996, and net income per share increased 19% from \$.27 per share in the first quarter of 1995 to \$.32 in the corresponding period of 1996.

#### LIQUIDITY AND CAPITAL RESOURCES

During the three months ended March 31, 1996, cash and cash equivalents decreased \$10.9 million comprising primarily \$18.2 million net cash provided from operating activities and \$.4 million from the sale of common stock offset by \$9.5 million capital expenditures, \$.5 million for acquisition of businesses, \$1.2 million net increase in investments and \$19.3 million net decrease in long-term debt.

Long-term obligations amounted to \$364.3 million at March 31, 1996. The majority of this debt comprises \$126.4 million senior notes due 1996 to 2005 and \$223.0 million advanced under a \$300 million unsecured line of credit and commercial paper facility expiring May 17, 2000. A facility fee ranging from .175% to .325% per annum is required on the entire bank line regardless of usage.

The Company has historically applied a significant portion of its cash flow from operating activities together with proceeds of its common stock offerings and long-term borrowings to acquisitions.

The Company believes that its cash flow from operating activities together with other available sources of funds will be adequate to meet its funding requirements.
